

Furio Torracchi

ARTIST · MUNICH, GERMANY

furiotorracchi.com · furio.torracchi@gmail.com · @furio_torracchi

Munich-based Italian artist working across photography, painting, sculpture, and digital media. His practice centres on the transformation of the photographic image — treating photography not as documentary record but as raw material subjected to digital manipulation, painterly intervention, and formal fragmentation, producing work that moves between representation and abstraction. Recurring themes include memory, perception, and the dissolution of unified meaning.
