

GenStone®

Vanilla Bean

Beige Base with
Warm Brown
Highlights

“I wanted to spruce up the kid’s playhouse and so I only needed a couple of sheets of the stone. It made it look instantly better. I just used a backsaw to cut the pieces - no special tools needed. I’ll attach a before and after so you can see.”

—Amanda, Edmond, OK

“We wanted to let you know how happy we are with the GenStone fireplace project we recently completed. My wife and I are over 70 years old. Relatives and friends who’ve seen it are astounded at its authentic appearance and the fact we did the project ourselves in less than a day.”

—Jerre, Banning, CA

“Most of my basement was done by contractors but I did carve out a couple of projects to do by myself. I am not an expert in construction by any means, but if you can measure, cut with saws, drill and glue, you can do this too.”

—Janice, Colorado

“I was extremely satisfied with the GenStone experience. We looked at a number of other products, however it was the overall look and ease of application that sold us. Our friends and family have only confirmed the “WOW” factor we hoped for. We are thrilled with the new look and are happy to give our full endorsement of GenStone.”

—Laura, Oklahoma

VANILLA BEAN STACKED STONE SYSTEM

Vanilla Bean Color Profile Inspiration

Do you remember that feeling of a cool, crisp vanilla ice cream cone on the hottest of summer days? The soft white cream, speckled with blended dark vanilla beans was refreshing and perfectly dependable. Our design team was inspired by this satisfying nostalgia and created the GenStone Vanilla Bean Faux Stone panel to suit almost any taste.

This neutral faux stone style features a soft beige undertone with striking tan highlights. The design is versatile and can pair with traditional, modern, and contemporary elements and more! Try GenStone Vanilla Bean faux stone panels with your next project. Order your sample today.

Try out our visualizer to see if Vanilla Bean is the best color choice for your next project!
