OUR MISSION

“Delivering World-Class Silica Sand Solutions with Unmatched Quality and Customization, Empowering Industries Globally.”

The mission highlights your commitment to providing premium silica sand with strict standards, offering customized solutions and tailored quotes, while positioning your company as a trusted global partner for consistent quality.

OUR VISION

“To Become a Global Leader in Premium Silica Sand Exports, Redefining Industry Standards with Innovation, Precision, and Sustainability.”

The vision focuses on revolutionizing the silica sand export market, aiming to achieve leadership by setting higher benchmarks in quality and customer satisfaction. It underscores your aspirations to expand internationally while driving innovation and sustainability.

CORE VALUES

- **Excellence:** Consistently high-quality silica sand with uniform characteristics.
- **Customer-Centricity:** Bespoke solutions tailored to unique needs.
- **Integrity:** Reliable partnerships built on trust and transparency.
- **Innovation:** Continuous improvement in quality and service.
- **Sustainability:** Eco-friendly practices to protect resources.
- **Collaboration:** Leveraging local expertise for global impact.

BRIEF HISTORY

1996 – Establishing the Foundation: **Mekar Jaya Silica** was founded with a vision to supply premium silica sand to local industries in Java, becoming a trusted name in the market through consistent quality and service.

2024 – Expanding Horizons: Recognizing the growing demand for high-quality silica sand in global markets, **Purnomo Silica™** was launched as the export-focused sister company of Mekar Jaya Silica.

A Shared Legacy of Quality: Backed by nearly three decades of expertise, Purnomo Silica™ inherits the commitment to quality and customer satisfaction while introducing **bespoke solutions** and **tailored quotations** to meet the diverse needs of international clients.

INDUSTRY

- **Premium Silica Sand Supply:** Purnomo Silica™ operates within the industrial materials sector, specializing in **high-purity silica sand** for a wide range of applications. These include glassmaking, construction, water filtration, electronics, and foundries.
- With nearly three decades of expertise, our operations are aligned with global industrial demands, ensuring **consistency** and **quality**.

MARKET POSITION

1. **Unparalleled Quality:** Consistent uniform mesh size and color, backed by stringent quality control.
2. **Bespoke Solutions:** Customization options with tailored quotations to meet specific client needs.
3. **Legacy and Trust:** Drawing on 28+ years of experience through Mekar Jaya Silica, we offer unparalleled reliability.
4. **Global Focus:** Purnomo Silica™ positions itself as a trailblazer in the export market, bridging the gap between local expertise and international standards.

CLIENTELE

- **Notable Industries Served:**
 1. **Glass Manufacturing:** Ensuring clarity and Gstrength in glass products.
 2. **Construction:** Supporting durable concrete and building materials.
 3. **Electronics:** Providing essential high-purity materials for semiconductors.
 4. **Coatings and Adhesives:** Collaborating with industry leaders for premium product outcomes.
- **Notable Customers:** Partnerships with global leaders such as *BASF*, *Flowcrete*, *Master Builders Solutions*, and *SIKA* underscore our **reputation** for quality and consistency.

AWARDS

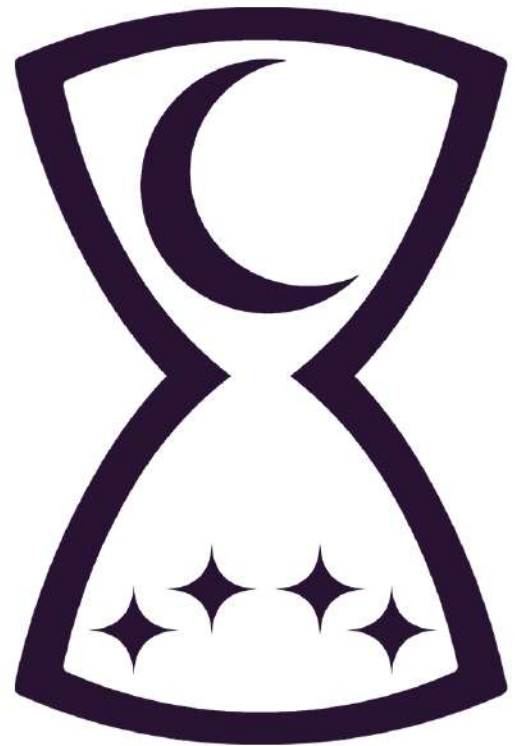

- Over 28 years of **excellence** in silica sand production and supply, recognized with key industry accolades.
- **Certified** for **quality standards** meeting both local and global industrial requirements.

PARTNERSHIPS

- Collaborates with **industry leaders** like *BASF*, *Flowcrete*, *Master Builders Solutions*, and *SIKA*, known for **innovation** in chemicals, **construction** materials, and resin **flooring** systems.
- These alliances reflect a commitment to **quality, innovation**, and **reliability**.

COMPANY CENTRIC POINT

*"From Java to the World—**Purnomo Silica™** combines 28 years of legacy of **Mekar Jaya Silica** with modern innovation to provide industries globally with the **finest silica sand solutions.**"*
