## Client Testimonials

"Jen's experience managing government programs and engaging communities throughout the Puget Sound region has been invaluable to the City of Orting. Her deep technical expertise, creativity, and exceptional work ethic are instrumental in the successful development of our federally funded Safe Streets for All Action Plan." – Ashely DeGraffenreid, Capital Projects Manager, City of Orting, WA

"Thanks to Jen's passion and technical expertise, our utilities and energy security program improved dramatically. Jen's work transformed our policies, capital investment plan, and our building efficiency programs, significantly reducing operating costs and improving our ability to serve the Marine Corps community." – Randy Monohan, HQ Marine Corps

- Capital Facilities Plan development
- Grant application research and writing
- Leadership coaching for management
- Development of policies and procedures
- Training program development and delivery
- Assessment of program performance
- Technology evaluation for asset management, customer engagement, permitting, and project management

## Testimonials and Awards

### Summit Award

Awarded the 2024 Summit Award by the Public Relations Society of America Puget Sound Chapter for "Effectively Communicating Budget Needs". This body of work and my ability to translate complex issues for elected officials helped my department obtain approval for 49 of 50 decision packages and on-time adoption of a \$1.1 billion biennial budget.

### City of Roy, WA

"I wanted to express my sincere gratitude for your leadership and the incredible work you do. Your dedication and expertise directly enhanced the quality of life for our residents and your help has been invaluable to the City of Roy and our public works operations."

- Mayor Kimber Ivy

### Standing Ovation Award

The Workflow Improvement Project was recognized by the Pierce County Executive in 2024 in the category of Effective Government. This Lean Six Sigma guided effort redesigned the permitting process and reorganized 125 FTE, increasing accountability, efficiency, and quality control in land use, environmental, and building applications.
