## DERMAL FILLERS

### NEAUVIA™

Neauvia Organic is the world's first filler line designed to stay true to nature. Crafted with the purest hyaluronic acid from *Bacillus subtilis* and using cutting-edge technology.

### Sculptra®

Sculptra is a unique, collagen-stimulating treatment designed to restore facial volume and reduce lines, wrinkles, and folds—naturally and gradually. Made with poly-L-lactic acid (PLA), a safe, biocompatible, and biodegradable material. It is suitable for deep facial wrinkles and folds.

## DERMAL FILLERS

The Juvéderm collection of dermal fillers is designed to enhance and restore facial volume, delivering natural-looking, long-lasting results. Whether it's lifting the cheeks, smoothing smile lines, softening wrinkles, or plumping the lips, each Juvéderm product targets specific areas for beautifully balanced outcomes.

## RADIESSE®

Radiesse is an injectable dermal filler designed to add volume, smooth moderate to severe facial wrinkles, and provide an immediate lifting and firming effect. With the added benefit of Lidocaine, a powerful anesthetic, the procedure is more comfortable, ensuring a smoother experience.

## DERMAL FILLERS

### TEOSYAL

TEOSYAL offers a comprehensive range of dermal fillers, made from biodegradable hyaluronic acid. TEOSYAL fillers enhance skin hydration and softness, leaving the skin moisturized and healthy-looking. The product range effectively targets multiple areas including the upper face, mid-face, lower face, neck, and neckline.

### LOVEUP®

LOVEUP is a next-generation hyaluronic acid (HA) gel filler, specially formulated for large-volume restoration in both the face and body. Derived from non-animal stabilized hyaluronic acid (NASHA), LOVEUP delivers natural-looking volume with a durability of 6 to 18 months.

# BOTOX

NABOTA®

Nabota 100IU is a high-purity botulinum toxin type A, widely used in aesthetic medicine to smooth dynamic wrinkles, such as forehead lines, frown lines, and crow's feet, by temporarily relaxing targeted facial muscles.

BOTOX®

BOTOX Cosmetic is an FDA-approved treatment by Allergan that temporarily softens frown lines, forehead lines, and crow's feet in adults. It works by gently relaxing facial muscles to deliver natural-looking, refreshed results with minimal downtime.

Dysport®

Dysport is a botulinum toxin type A injectable designed to smooth moderate to severe frown lines between the eyebrows without freezing facial expressions. Clinically proven and fast-acting, Dysport delivers natural, refreshed results with minimal downtime.
