## What Our Clients Say...

“Trenton’s beautiful Portraits captured our family in moments of tenderness, warmth, and joy. Patience and creativity were Trenton’s best assets during our portrait sitting with our 3-year-old daughter and baby boy. Only a true professional would take the time as Trenton did to wait for a crying fit to subside and then cheerfully snap away.

We created a glimpsed playfulness and confidence in our young daughter through Trenton’s portraits that we will love and enjoy. All of this made the session well worth while and priceless.”

- J. Banks

“My family means the world to me. I never thought someone would be able to capture the love and closeness we all share but I was wrong. The portraits you created of us is now our most cherished possessions. I look at it every single day and it always makes me smile. Thank you Trenton for creating such a special memory.”

- Pam Paterson, Granite Bay, Ca

“Trenton had created our oldest son’s 8th Grade Portrait and we thought it was great! I love Trenton’s use of personal locations, his ability for perfect lighting for the locale and his clothing suggestions to bring out the subjects.

Trenton is creative, technically skilled and able to put you at ease so you’ll look comfortable and natural. He has the ability to make your portrait sitting fun and relaxing. He is quite a comedian!

It was important to us that ALL members of our family looked great, for the house extension to look nice and formal enough to be placed in our living room.

The best thing about Trenton’s portraits is receiving them!! The smiles captured, the great look Trenton gives me and the backgrounds always look great too.”

- Kerrie O’Neill, Granite Bay, Ca.

“We came to Trenton Bahr because of the care and warmth of everyone at Trenton Bahr Portraits. Our boys are in their teens and soon will be gone, it was “now or never”. We wanted to capture our family before the boys were out on their own and were adults with their own families.

During the portrait planning session our preferences were considered. We were advised on what to wear and what to expect when we had our sitting. If we had to have a formal sitting I know it would never have been taken.

Trenton did his best to make everyone feel at ease and relaxed. We did not feel like we were like everyone else, nor would we need to look like anyone else.

We were very happy with the selection process. Trenton’s Portrait Consultant was very helpful and professional and being able to view the portraits as they will appear in the finished product is very helpful.

We will treasure our portrait as a “moment in time” that we have captured and will never be lost or forgotten. We have recommended and will continue to recommend Trenton to our friends.”

- Marilyn & Randy Stoops

After photographing my first daughter I knew you had a true gift in making your subject feel special.

My second daughter is a quiet, well-reserved person. Your interaction with my daughter brought out a side of her personality that surprised me and was so beautiful to experience.

I would tell other parents. “Not only do you receive beautiful portraits -- you get a portrait artist that engages his clients and brings out the best.”

Thank you, Thank you Trenton!

- Mary Alice Morency

## Accolades

Trenton grew up on the outskirts of Madison, Wisconsin. At a very young age his love of people and art made him a natural portrait artist. Before the age of 20 he was already receiving awards with his portraits plus worked with two Wisconsin governors. Throughout his career he has worked with television and radio personalities, CEO's, state senators, judges (including a Supreme Court Justice) and one presidential nominee.

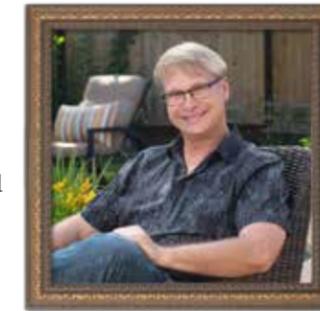

Trenton graduated college from Brooks Institute of Visual Arts in the late 80's where he was awarded the Merit of Excellence in Portraiture. He went on to work for two Master Portraitists: John Blom in Newport Beach, CA and the great Ted Sirlin of Sacramento, CA who helped him further master his craft. Trenton then opened his studio in Granite Bay, CA which served Northern California for nearly three decades. This was the perfect place and time to raise his three children while perfecting his art and business.

Trenton's expertise in portraiture has been recognized by his peers, earning him the designation of Master Portrait Artist and the honor of being named America's Premier Expert in Portraiture. He has shared his knowledge and passion for the art of portraiture through books, manuals, and videos, which have won awards and accolades, including the prestigious Golden Quill Award.

## Philosophy

*The interesting Part in Trenton's own words.*

"A Great Artist once shared with me that the difference between Art and Skill is intention. Since the beginning of my profession, my intention was to create a loving, complimentary likeness of my subject while offering them an experience where they felt elevated and celebrated for who they are. I discovered with this mindset, along with my light-hearted charm, my clients would relax and feel comfortable, expressing their inner personality with a smile. It doesn't matter whether it's a big or little smile, the true story was always told in their eyes. Helping people feel at ease has been a natural gift of mine. Clients have repeatedly shared this testament which I take as a high compliment.

When my youngest son went off to college a few years ago, I found myself as a single father of three, an empty nester with an opportunity of freedom I had never had before. Being in my early fifties, this seemed like the perfect time to sell my studio and...

At that time two things happened: I became very selective of whom I created portraits and I packed up to explore the world. First I found myself exploring. I ended up teaching English to grade school kids and novice monks in Thailand. I then headed off to fish for salmon and ride horseback in Alaska. Twice I found my way up to an island in Ontario, Canada to fish and cook with my cousins. Those visits were a blast! I spent many months in Wisconsin reconnecting with family and friends, some of which I hadn't seen since high school.

I have also been blessed to make a few trips to Mazunte, Mexico the past few years, spending a couple months each trip. This is where I fell in love with Hatha Yoga. I experienced many new modalities and earned three yoga teaching certificates. And during all that travel, I flipped a house with a friend on the Oregon coast which helped to remind me that I'm actually really handy.

I mention all this to show that I've had a wonderful time these last handful of years but something was missing. The truth is, after my last trip from Mexico, I found myself sitting on my sofa looking around my home. What I absolutely treasure the most through the years and faithfully moved from home to home were the many wall portraits of my children. These same portraits now decorate my lovely home outside Bend, Oregon.

It wasn't until I sat enjoying these beautiful portraits recently that I truly began to appreciate the wonderful gift I had given myself by creating these amazing portraits over the years. I sit here today, cherishing the beautiful children they were and appreciating the amazing adults they have become.

My purpose and intention is to give this same gift to you and your family."

With love,

*Trenton Bahr*
