

Organised By:

4TH ONE DAY INTERNATIONAL
CONFERENCE, EXPO AND AWARDS ON

EMERGING TECHNOLOGIES ON ELECTRICAL SYSTEMS

THEME:

DIGITAL & DIGITALIZATION... NOW & NEXT (DDNN)

21st August 2025

Venue: SCOPE Complex, Lodhi Road, Jawaharlal
Nehru Stadium Marg, Institutional Area,
PO: New Delhi, 110003

FOCUS OF THE ETES - 2025

The conference will focus on discussing the present & upcoming modern technologies & smart digital systems to integrate transformation & automation for improving the performance of various electrical equipment & systems.

It will be a transformative event for useful interaction among Indian and global manufacturers, dealers, buyers, and professionals in the fields of electrical, power, & energy. The technical experts of the respective areas will explore on new systems and noteworthy developments so as to pave the way for business expansion & corporate collaborations.

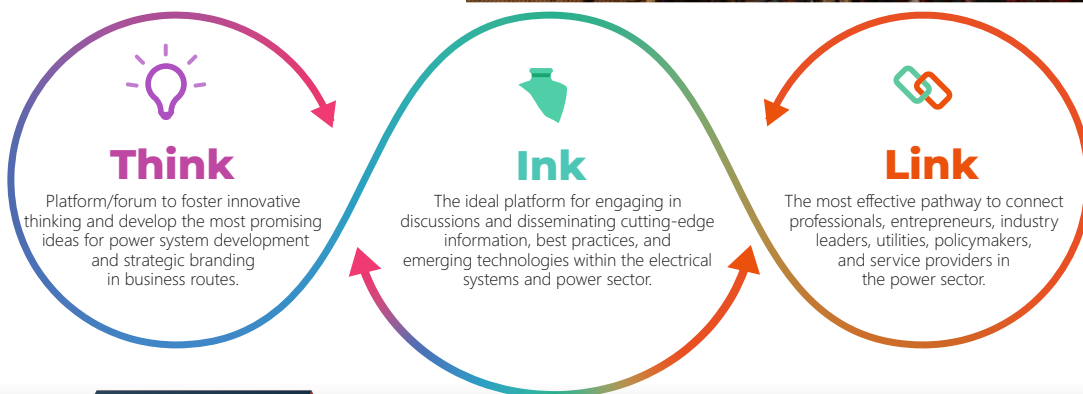

Artificial Intelligence, Machine Learning & Digital technologies are the need of today. Integrating these with the existing systems will surely bring a sea change in the overall performance of all industrial units whether small or large in the PSU or private sector industries.

— Scenes From Our Last Events —

Think, Ink and Link

WHY PARTICIPATE ?

01

BRAND VALUE

Taking part in international conferences, expos, and awards is a potent means of establishing your brand presence on a global scale. It distinguishes your organization as an industry leader and also garners domestic and international recognition.

02

NETWORKING

Networking is an investment in your future and in yourself. The connections you establish today have the potential to provide you with opportunities that can propel your career to exceptional heights.

03

MARKET RESEARCH

Being a part of the events encourages professionals to push their limits and showcase their talents in order to gain recognition on a global platform. This instils a sense of pride and accomplishment within the realm of market research.

Sub-Topics for the Discussions

- Operation systems & future trends for Power Transformer industry
- Critical issues & case studies of Power Transmission & Distribution
- New age Testing & Measuring Instruments for equipment maintenance
- Sustainable transformation of Wires & Cables industry
- Serious issues relating to Electric & Fire accidents & their mitigation
- Importance/problems of Earthing & ground faults
- Automation boosts efficiency, reliability, and safety through advanced control systems, real-time monitoring, and predictive maintenance.
- Bad power quality & its impact on Industrial Equipment performance
- Renewable Energy Integration: Optimizing solar, wind, and energy storage for a greener tomorrow.
- The Changing Regulatory Environments: Paving the Way for Changes in Metering Infrastructure
- AI & Digitalization scope & application in Electrical & Power sector

Topics

Sponsors categories are as follows...You can choose the category accordingly

Platinum Sponsor

₹ 6,00,000/- +GST or \$ 7000.

The sponsor will get many benefits, like:

- The logo will be featured as a platinum sponsor.
- Branding on all communication elements and displays.
- Exhibition stalls of 2x3 square metres.
- 4 to 5 minute slot for video presentation.
- You can submit your technical papers.
- 4 to 7 free delegate registrations.
- Branding promotion on our weekly e-newsletter.
- Will promote the sponsor on social media platforms such as LinkedIn, Facebook, Instagram, and X.

Gold Sponsor

₹ 5,00,000/- +GST or \$ 6000.

The sponsor will get many benefits, like:

- The logo will be displayed as a gold sponsor.
- Branding on all communication elements & displays.
- 4 minute slot for the video presentation.
- You can submit your technical papers.
- Branding promotion on our weekly e-newsletter.
- 4 to 6 free delegate registrations.
- Will promote the sponsor on social media platforms such as LinkedIn, Facebook, Instagram, and X.

Silver Sponsor

₹ 2,50,000/- + GST or \$ 3000

- The logo will be displayed as silver sponsor
- Branding on all communication elements & displays.
- Slot of 5-8 minutes for video presentation (Briefing).
- 4 free delegate registrations.
- You can submit your technical papers.
- Branding promotion on our weekly e-Newsletter
- Will promote the sponsor on social media like LinkedIn, Facebook, Instagram and X.

Kit Sponsor

Rs 2,00,000/- +GST or \$ 2500

- The logo will be displayed as a kit sponsor.
- 4 free delegate registrations.
- Branding promotion on our weekly e-newsletter.
- Will promote the sponsor on social media platforms such as LinkedIn, Facebook, Instagram, and X.

Exhibition Stall

₹ 80,000/- +GST.

- The logo will be displayed as a stall exhibitor.
- Exhibition stalls of 2x3 square metres.
- 4 free delegate registrations.
- Branding promotion on our weekly e-newsletter.
- Will promote the sponsor on social media platforms such as LinkedIn, Facebook, Instagram, and X.

Logo Sponsor

₹ 60,000/- +GST.

- The logo will be displayed as a logo sponsor.
- 3 free delegate registrations.
- Branding promotion on our weekly e-newsletter.
- Will promote the sponsor on social media platforms such as LinkedIn, Facebook, Instagram, and X.

Notes : Claim the Top Spot as **TITLE SPONSOR** – A Complete Package for 8 Lacs!

Delegates fee – INR 5000/-

International Delegates- USD 200

Commercial technical papers - It has INR 50,000/- +GST.

* You can submit your technical papers.

* 2 free delegate registrations

Roundtable Discussions:

ETES 2025 introduces exclusive roundtable discussions curated especially for our sponsors bringing together key decision makers, industry leaders, and innovators for focused, high-value dialogue. These closed-door sessions offer a premium platform to exchange insights, explore strategic partnerships, and address pressing challenges shaping the future of the energy and electrical landscape. With themes spanning digital transformation, sustainability, innovation, and policy, these sponsor-led roundtables are designed to turn conversations into collaborative action.

Why You Should Attend the Electrical Systems Conference 2025: Fascinating Facts That Spark Action?

The Electrical Systems Conference 2025 goes beyond theory—it's a platform for action. Each focus area reflects the pressing need to transition to smarter, cleaner, and more resilient energy systems that can meet the demands of an interconnected world.

This conference will give you access to exclusive insights, hands-on workshops, and opportunities to collaborate with global pioneers and innovators. Whether you're leading an industry initiative, driving research, or just passionate about the future of energy, this event is your chance to help shape the next era of electrical systems.

Join the movement, contribute to the conversation, and help power a sustainable tomorrow.

The **ELECTRICAL MIRROR** Magazine: Reflecting the Future of Innovation!

An outlook of the Electrical & Power Industry

In a world where technology constantly shapes the way we live, work, and interact, The Electrical Mirror Magazine stands as a beacon of insight, illuminating the rapidly evolving landscape of electrical engineering, energy, and innovation. More than just a publication, it's a reflection of the future.

The Electrical Mirror Magazine is your portal to the dynamic world of the electrical and power industries. Reflecting the latest in energy solutions, grid innovations, and power systems, it captures the pulse of a rapidly evolving sector. From sustainable power sources to the technology shaping the future of electricity, each page sparks new ideas and insights. Stay informed, stay ahead, and see the future of power in The Electrical Mirror.

The Electrical Mirror captures the heartbeat of the industry. With each page, readers are transported into a world where sustainability meets efficiency, and visionaries drive change with every wire and current.
