ABOUT IDIKAJANG

Idikajang is a limited liability company operating within the scope of consulting services. Idikajang was established under the name PT Darma Utama Sapta based on Deed of Establishment No. 12, dated March 3, 1978, by Notary Raden Soerojo Wongsowidjojo, S.H., domiciled in the Administrative City of Jakarta. On June 16, 1978, the Company amended its Articles of Association and changed its name to PT Idi Kajang based on Amendment Deed No. 34, dated June 16, 1978, by the same Notary, ratified by the Minister of Justice Decree No. Y.A.5/216/12, dated July 31, 1978.

The Company's Articles of Association have undergone several amendments. In 2009, the Company was officially renamed **PT Idi Kajang Consultants** in accordance with Law No. 40 of 2007 on Limited Liability Companies, based on Deed No. 34, dated March 12, 2009, by Notary Siswadji, S.H., with ratification from the Minister of Law and Human Rights on March 15, 2009 (No. AHU-12796.AH.01.02, 2009). The Articles of Association were last amended in 2022 through Notarial Deed No. 05, dated March 30, 2022, by Kasmita Syafni, S.H., Notary domiciled in South Jakarta Administrative City, duly recorded with the Legal Entity Administration System of the Ministry of Law and Human Rights (No. AHU-0023887.AH.01.02, April 4, 2022).

BRINGING IDEAS TO LIFE
AND FOSTERING
INNOVATION THROUGH
TECHNOLOGY.

Idikajang carries the mission to be a leading agent in the development of consulting services. Throughout its growth, Idikajang has continuously transformed and expanded its business across various supporting sectors, serving both Government agencies and State-Owned Enterprises (SOEs) such as PT Pelindo, PT ANTAM, and PT Kereta Api Indonesia (KAI). To this day, Idikajang continues to extend its reach by pioneering breakthroughs in business and digital transformation, with a strong emphasis on close collaboration with partners and clients to deliver high-quality consulting services in the fields of telematics, economics, engineering, business, and management.

Idikajang's primary mission is to conduct independent research and provide consulting services to support decision-makers across Government, Private Sector, and Non-Profit Organizations in identifying strategic options and solutions for effective decision-making. Idikajang is currently led by a team of experienced professionals, supported by associate experts including economists, engineers, scientists, policy experts, and practitioners with extensive national and international experience who understand the unique characteristics, solutions, and development challenges in Indonesia.

COMPANY LOCATION

Idikajang's head office is located at **Office Tower Graha Simatupang** Wing 2B, 1st Floor, Jl. TB Simatupang Kav. 38, South Jakarta. To ensure convenience and service efficiency in carrying out project activities, **Idikajang** also maintains a studio serving as its Operational Division, located on the 2nd Floor of Jl. Taman Margasatwa No. 27, Ragunan, Pasar Minggu, South Jakarta, fully equipped with adequate facilities and equipment.

SOUTH JAKARTA

IDIKAJANG OPERATION DIVISION

Jl. Taman Margasatwa No. 27, 1st Floor
Ragunan, Pasar Minggu, South Jakarta

OUR VISION & MISSION

VISION To become a leading consulting company that delivers innovative and sustainable solutions in asset management, strategic management, and infrastructure development, supporting sustainable economic growth and development.

MISSION

1. Delivering Quality Services

Providing professional consulting services based on data and in-depth analysis to support effective and efficient decision-making.

2. Innovation and Technological Excellence

Developing and implementing the latest technologies in asset management, carbon accounting, and business strategy to enhance client competitiveness.

3. Human Resource Empowerment and Competency

Enhancing human resource capacity and competency through continuous training and professional development.

4. Sustainability and Social Responsibility

Integrating sustainability principles into every business aspect to support environmental, social, and good governance objectives.

5. Collaboration and Networking

Building strategic partnerships with various stakeholders to create solutions with broad impact.

- Meeting, Incentive Travel, Conference & Exhibition (MICE) Organizer Services (**KBLI: 82301**)

TRANSFORMING CONCEPTS INTO REALITY AND NURTURING INNOVATION

OUR SERVICES

KBLI: 62019

Other Computer Programming Activities

This group covers consulting activities related to the analysis, design, and programming of ready-to-use systems (other than those covered in groups 62011 and 62015). Activities typically involve analyzing user requirements, troubleshooting issues, and developing related software solutions — including writing simple programs, designing system structures and content, writing code for creating and implementing software systems (updates and patches), application software, databases, and websites. Also includes software customization and configuration of existing applications to function within client information system environments.

KBLI: 62021

Information Security Consulting Activities

This group covers planning and oversight of information security, information assurance/auditing, and the development and implementation of information security measures.

KBLI: 62029

Other Computer Consulting & Computer Facilities Management Activities

This group covers consulting businesses regarding types and configurations of computer hardware with or without associated software applications. Planning and design of computer systems integrating hardware, software, and communication technologies. Units classified under this subgroup may also provide hardware and software components as part of integrated services or through third-party vendors.

KBLI: 62090

Other Information Technology & Computer Service Activities

This group covers information technology and computer service activities related to activities not classified elsewhere, such as computer damage recovery, computer installation (setup), and software installation. Also includes insider management and digital forensics activities, as well as various computer-related businesses not covered under groups 6201-6202.

KBLI: 63111

Data Processing Activities

This group covers data processing activities including tabulation of all types of data, covering all stages of processing and report writing from data provided by clients, or only part of the processing stage. Includes mainframe facility sharing with clients, data entry, and management of large databases (big data). Also includes services and/or other services through the internet and/or electronic devices and/or electronic systems without commercial purpose.

KBLI: 63121

Non-Commercial Web Portal and/or Digital Platform

This group covers the operation of web portals using search engines to generate and maintain large databases of internet addresses and content in easily searchable formats; operation of internet portal websites; operation of digital platforms and/or web portals/sites conducting electronic business transactions facilitating the transfer of ownership of goods and/or other services through the internet and/or electronic devices and/or electronic systems without commercial purpose.

KBLI: 63122

Commercial Web Portal and/or Digital Platform

This group covers analysis, design, and programming of ready-to-use systems (other than those covered in groups 62011 and 62015). Activities typically involve analyzing user computer requirements, troubleshooting issues, and developing related software solutions — including writing simple programs, designing system structures and content, writing code for creating and implementing software systems (updates and patches), application software (updates and patches), databases, and websites. Also includes software customization and configuration of existing applications to function within client information system environments.

KBLI: 70201

Tourism Consulting Activities

This group covers professional tourism service provider activities, including providing professional views, recommendations, and/or studies related to feasibility, planning, organization, direction, coordination, supervision, reporting, and/or other management functions in the tourism sector.

KBLI: 70203

Public Relations Activities

This group covers the implementation of communication activities to build and maintain good and beneficial relationships between organizations, businesses, or individuals with the public that may influence the image of the organization or individual.

KBLI: 70209

Other Management Consulting Activities

This group covers the provision of regulatory assistance, advice, guidance, and consultation on business and management operations, including organizational planning, strategy and organizational decision-making related to finance, marketing policies, planning, practices and human resource policies, production scheduling, production control. Service providers under this category also include management advisory services, management consulting by agronomists and agricultural economists in agriculture and related fields, accounting and related methods, budget procedures, expenditure oversight, preparation of advice and community service and planning programs, organizational efficiency and oversight, management information, and others. Also includes infrastructure investment study services.

KBLI: 82301

Meeting, Incentive Travel, Conference & Exhibition (MICE) Organizer Services

This group covers businesses engaged in organizing, promoting, and managing events such as services for groups of people (businesspeople, scholars, etc.). Also includes businesses that plan, arrange, organize incentive travel programs and services to conduct planning and organization of trade exhibitions and business events, conventions, conferences, and meetings. These activities are also known as MICE (Meeting, Incentive, Convention, and Exhibition).

MASTERPLAN DEVELOPMENT FOR NON-PRODUCTIVE ASSET (ANP) MANAGEMENT

PT ANEKA TAMBANG TBK

2024

State-Owned Enterprises (BUMN) play a vital and strategic role in utilizing and managing state-owned assets for the purpose of healthy and sustainable national development. In accordance with guidelines on asset optimization, BUMN are encouraged to strategically optimize the assets under their management. Under Law No. 19 of 2003 on State-Owned Enterprises, BUMN are entities whose capital is wholly or substantially owned by the state through direct equity participation derived from separated state assets. Based on this law, BUMN bears a dual responsibility: serving as an agent of development while also developing its core business to sustain the company's operations.

In the context of maintaining business sustainability and addressing increasingly competitive global challenges, BUMN must enhance added value through maximizing the utilization of all assets in line with optimal service delivery. However, the reality is that many BUMN assets remain underutilized. PT Aneka Tambang (ANTAM), as a mining company with an industrial cycle spanning from exploration to post-mining phases, faces the challenge of post-mining asset management. Upon entering the post-mining phase, all production and operational activities cease.

The consequence of post-mining designation is that production support assets become non-productive or Non-Productive Assets (ANP). Meanwhile, ANTAM continues to bear maintenance costs and tax obligations on these ANP, potentially leading to inefficiencies. Therefore, ANTAM requires a planning instrument (masterplan) as the basis for future ANP management.

Addressing these challenges — both external (increasingly competitive global business landscape) and internal (non-productive fixed assets) — ANTAM requires a strategic, systematic, comprehensive, integrated, and sustainable planning instrument. This Non-Productive Asset Management Masterplan serves as a guide for policymakers and stakeholders in promoting comprehensive and sustainable ANP utilization and management.

This project involved sampling locations at several ANP sites owned by ANTAM based on completed asset mapping results:

1. Pasca Tambang Kijang, Bintan, Riau Islands
2. Pasca Tambang Pasir Besi Cilacap, Cilacap Regency, Central Java
3. Pasar Tambang Pulau Gebe, North Halmahera Regency, North Maluku

WORKSHOP ON BUMN ASSET MANAGEMENT PT ANTAM TBK 2023

State-owned enterprises play a crucial and strategic role in utilizing and managing their assets for the purpose of healthy and sustainable national development. In accordance with the guidelines for optimizing state-owned fixed assets, BUMN are encouraged to strategically optimize the assets under their management.

Workshop Scope — BUMN Asset Management Training:

1. Understanding the definition, principles, and objectives of asset management
2. Understanding the asset lifecycle of the company comprehensively
3. Understanding the stages of effective asset management implementation within the company
4. Understanding the requirements for compliance with regulations/legislation at each stage of Asset Management, with a particular focus on land acquisition for public interest
5. Enhancing problem-solving capabilities related to corporate asset management issues
