

SUPPLY LIST FOR MINIATURE PINEAPPLE BLOCK

- Sewing machine
 - Basic sewing supplies
 - Scissors for cutting fabric, smaller are better
 - Schmetz Microtex needles work well, but any small (size 11 or 10) needle is suitable
 - Lightweight cotton thread that blends with your fabrics (50 weight or finer)
 - Fabric: this design works especially well with just two fabrics. Precut 1" width-of-fabric strips: three of a light fabric and three of a dark fabric. If you would like a scrappier look, cut 8-10 WOF strips, 1" wide, sorted into lights and darks. Small scale prints, tone on tones, and solids work well.
 - Think about using a contrasting fabric for the very center of your squares. Bright colors work well here, and only a small amount is needed.
 - Open toe foot
 - Rotary cutter/ruler/small cutting mat
 - A small paper bag or something similar is recommended to catch all of the little fabric trimmings
 - Optional: mini iron and pressing mat
- Foundations will be supplied. The product that Amy prefers is Foundation Stuff by George Siciliano, plenty of sample patterns will be provided.

SUPPLY LIST FOR MINIATURE LOG CABIN BLOCK
