

HARNESS THE POWER OF CHEOPS

PMO DIGITAL - THE VALUE ADD

HERE ARE THE REASONS WHY YOU WILL WANT TO WORK WITH PMO DIGITAL & TECHNO-VISION

1. Cost Efficiency

- **Competitive Pricing:** Our labor costs are significantly lower than most competitors, allowing us to offer high-quality rendering and modeling services at attractive prices.
- **Maximized ROI:** Clients can achieve significant cost savings without compromising on quality, ensuring a higher return on investment, especially when you resell at fixed rates.

2. Expertise and Innovation

- **Expertise:** Our team consists of highly skilled engineers with extensive experience in NAVIS, CAD, Civil3D, ArchiCAD, Revit, BIM modeling & Unreal Engine, ensuring top-notch service.
- **Cutting-Edge Technology:** We leverage the latest advancements in Unreal Engine to create highly realistic and interactive models, enhancing project visualization and decision-making. You have a fully featured set of renderings to study with your client.

3. Quality and Precision

- **High-Quality Renderings:** Our renderings and TWINS are known for their precision and photorealistic quality, providing clients with accurate and detailed visualizations.
- **Attention to Detail:** We ensure every aspect of the model is meticulously crafted, meeting the highest standards of accuracy and detail. We have customers who will endorse this.

4. Scalability and Flexibility

- **Scalable Solutions:** Whether it's a small project or a large-scale development, our services are scalable to meet the needs of any project size.
- **Flexible Engagement:** We offer flexible engagement models tailored to the specific requirements and timelines of our clients. Our people, your time and money.

5. Enhanced Collaboration

- **Seamless Integration:** Our 3D models can integrate seamlessly with existing workflows and tools, facilitating better collaboration among the client's project stakeholders.
- **Real-Time Updates:** Using Techno-vision's cloud clients will benefit from real-time updates and modifications, ensuring that the project stays on track & changes promptly addressed.

6. Sustainability and Innovation

- **Sustainable Practices:** We incorporate sustainable practices in our modeling process, helping clients achieve their environmental goals.
- **Innovative Solutions:** Our innovative approach to BIM modeling helps clients stay ahead of the competition by adopting the latest industry trends and technologies.
