

Congress insulted Ambedkar, reduced SCs, STs and OBCs into second class citizens: PM Modi

CHANDIGARH: Prime Minister Narendra Modi on Monday accused the Congress party of reducing the Scheduled Castes, Scheduled Tribes and OBCs into "second-class citizens" while in power.

The Prime Minister's accusation came on the birth anniversary of social reformer and chief architect of Indian Constitution Dr B R Ambedkar.

Modi was addressing a rally in Hisar after laying foundation

stone for a new terminal building at Majaraja Agrasen Airport worth over Rs 410 crore and flagging off a flight to Ayodhya.

Launching an all-out attack on the Congress, Modi said that the

Congress party's opposition to the Waqf (Amendment) Act, benefitted only a few "extremists" while leaving the rest of the community neglected, uneducated and impoverished.

Supreme Court landmark ruling on Governor Vs State

In a landmark judgment on April 8, 2025, the Supreme Court deemed Tamil Nadu Governor RN Ravi's refusal to assent to 10 state bills as illegal and unconstitutional.

The verdict, delivered by Justice JB Pardiwala and Justice R Mahadevan, came in response to a writ petition filed by the Tamil Nadu government challenging the Governor's prolonged inaction on important bills.

The case stemmed

from a prolonged standoff between the DMK-led Tamil Nadu government and Governor RN Ravi. Between November 2020 and April 2023,

the Governor without any communication. When the legislature re-approved the bills without any material changes, Governor Ravi still did not assent

the state legislature passed 13 bills, of which 10 were either withheld or sent back to the Assembly by

to the bills; reserving them for the President's consideration, which the court found unconstitutional.

Over four lakh devotees attend Tiruchy Samayapuram's car festival

TIRUCHY: Unmindful of the heat, several thousands of devotees witnessed the car procession of the Samayapuram Mariamman temple, held on Tuesday as part of the annual chithirai festival. Around four lakh devotees attended the car procession, police said.

The event commenced around 10.30 am when thousands of devotees pulled the wooden temple car carrying the idol of the processional deity, Mariamman amid chants of 'Om Sakthi'. The

car was pulled through the arterial streets surrounding the temple. Several of the devotees carried fire pots in their hands as part of fulfilling their vows. Some Good Samaritans set up stalls to distribute buttermilk and food to devotees.

Around 1,590 police

personnel were deployed to regulate the crowd. About 50 surveillance cameras and four drone cameras were installed around the temple premises. Three bomb detection and disposal squads were stationed, in addition to fire engines and ambulances.

'BJP deal' continues to rattle AIADMK

A few days after the revival of the alliance between the AIADMK and the BJP, the rumblings within the Dravidian party show that at least a sizeable section of the AIADMK leaders are not comfortable with joining hands with the saffron party.

Though no AIADMK leader went on record criticising the alliance, social media is abuzz with

messages from long-time supporters that the decision is wrong. On Sunday, in Madurai, when a reporter asked whether the AIADMK would form its government or a coalition government,

former minister Sellur K Raju said, "The government will be headed by the AIADMK." He added that while BJP could say a lot of things, what AIADMK says would only matter. On Monday, when reporters asked him again about the alliance, Raju said he would respond after 15 days, a reply that has intrigued many.

IFTV SPORTS CLUB

INDIAN FILM TV

Experience the ultimate in recreation and relaxation at IFTV Sports Club, located at Navalur. Our club offers a comprehensive range of world-class facilities designed to cater to every interest and lifestyle. Whether you're passionate about sports, fitness, or simply looking for a space to unwind, we have something for everyone. Enjoy the thrill of playing on our professional-grade cricket ground, host memorable events in our spacious banquet hall, or relax and rejuvenate in our luxurious spa. Our expansive open lawn is perfect for outdoor activities or leisurely walks, while our club restaurants offer a delightful dining experience with a variety of

cuisines to satisfy every palate. Stay fit and active in our fully equipped fitness center, and benefit from top-notch medical care at our in-house clinic. For a limited time, you can unlock all these exclusive benefits with our affordable yearly membership of just ₹15,000. With access to these state-of-the-art facilities and much more, IFTV Sports Club promises an enriching experience for individuals and families alike. Don't miss out on the opportunity to be part of a vibrant community that promotes wellness, leisure, and sportsmanship. Join us today and make the most of everything our club has to offer!

The film "3 7 O" alias "SEC-15" (Tamil) / "Nanu Obba Bharathiya" (Kannada) takes an interesting and timely approach by tackling the issue of terrorism, with a strong message against hate and violence. Integrating AI technology into the narrative could add a futuristic and high-tech dimension, possibly highlighting how advanced technologies can be leveraged in counterterrorism operations, or even how artificial

intelligence is used to track and combat terrorist activities. The combination of terrorism and AI technology is an intriguing one, as it could show a contrast between human emotions, like hate, and the cold, calculated power of artificial intelligence in addressing such threats. This could raise interesting questions about the role of technology in modern warfare, surveillance, and security operations.

"3 7 O" alias "SEC-15" (Tamil) / "Nanu Obba Bharathiya" (Kannada)

Plot Summary:

The film "3 7 O" alias "SEC-15" (Tamil) / "Nanu Obba Bharathiya" (Kannada) is an intense action thriller centered around a series of brutal terrorist attacks that shake the nation. In a world filled with hatred and violence, terrorists target innocent civilians through bomb blasts, ambushes, and other ruthless tactics, creating fear and chaos in society.

The Terrorist Threat:

Terrorists, using covert networks and advanced technology, plot multiple attacks aimed at destabilizing national security. They target major cities, including crowded public places, government buildings, and vital infrastructure, causing mass casualties and widespread panic. Their ultimate goal is to create unrest and weaken the country's resolve, using bomb blasts, gunfire, and other violent tactics to instill fear.

The Indian Army's Response:

The government, in response to these escalating terrorist activities, mobilizes its elite special forces — highly trained commandos who are experts in counterterrorism. They are tasked with neutralizing the terrorist threat and bringing the perpetrators to justice. This unit, known for their stealth, precision, and courage, is India's last line of defense. The film focuses on a high-stakes mission involving these special forces, who are sent to dismantle a terrorist cell believed to be responsible for a series of bomb blasts and attacks on innocent people. These commandos have one objective: to eliminate the terrorists, save hostages, and prevent further devastation.

Key Plot Points:

1. Bomb Blasts and Civilian Casualties:

The terrorists launch a series of bombings across the country—some in markets, others in crowded public spaces, killing hundreds of innocent civilians. The nation is in shock, and fear spreads across cities as people struggle to comprehend the scale of the attacks.

2. Special Forces in Action:

The Indian Army's Special Forces, under the leadership of a strong-willed commander (played by a lead actor like Rishikanth, Ragini Diwedi, or Srinivasan), take charge of the operation. The commandos are deployed on high-risk missions to infiltrate terrorist strongholds, gather intelligence, and thwart planned attacks. They must deal with both physical confrontations and emotional challenges, with the weight of protecting innocent lives on their shoulders.

3. Terrorists' Hideout and Strategy:

The terrorists, operating from a hidden base, are well-equipped and organized. They use advanced weaponry and

modern technology to plan their attacks. They are led by a ruthless terrorist mastermind, who is determined to carry out more deadly strikes. The film could feature intense face-offs between the commandos and the terrorist forces, filled with high-stakes action sequences, stealth operations, and emotional moments of sacrifice.

4. Chase and Confrontation:

The commandos must locate the terrorists' base, which is hidden deep in hostile terrain or urban areas. This leads to a tense chase, where intelligence and strategy play key roles in narrowing down the terrorists' hideouts. Along the way, the commandos face explosive confrontations, deadly traps, and bomb threats. Each moment is filled with suspense as the army works against time to prevent more bloodshed.

5. AI and Technology in Warfare:

Although the focus is on ground operations, AI and surveillance technology play a crucial role in tracking the terrorists. Drones, satellite imaging, and AI-driven intelligence systems help the commandos locate

targets and anticipate terrorist moves. These tech-driven tools assist

the commandos, but ultimately, it's their training and resolve that lead to victory.

6. Emotional Struggles and Sacrifice:

As the team gets closer to the terrorists, they face personal and professional challenges. Some may have family ties to the victims of the bomb blasts, adding emotional depth to their motivations. Throughout the mission, the commandos must grapple with the emotional toll of their actions, as they risk their lives for the greater good.

7. Final Showdown:

The climax of the film involves a high-intensity battle where the commandos infiltrate the terrorists' lair. The final confrontation is filled with heart-pounding action, explosions, and close-quarter combat. The commandos must make split-second decisions to ensure the safety of the innocent and bring an end to the terrorists' reign of violence.

Themes Explored:

• National Unity and Patriotism:

The film could explore themes of unity, as people from

different walks of life come together in the wake of tragedy. The soldiers' dedication to protecting their country serves as a strong symbol of national pride.

• Sacrifice and Courage:

The brave soldiers face numerous obstacles and make personal sacrifices for the greater good. The emotional weight of their decisions resonates throughout the film.

• The Fight Against Terrorism:

The film highlights the challenges

The film "3 7 O" alias "SEC-15" (Tamil) / "Nanu Obba Bharathiya" (Kannada) takes an interesting and timely approach by tackling the issue of terrorism, with a strong message against hate and violence. Integrating AI technology into the narrative could add a futuristic and high-tech dimension, possibly highlighting how advanced technologies can be leveraged in counterterrorism operations, or even how artificial intelligence is used to track and combat

in counterterrorism, not only fighting the physical threat but also addressing the underlying ideologies that fuel violence and hatred.

• The Cost of War:

The human cost of war, whether it's the loss of life in bombings or the emotional toll on soldiers, is central to the narrative. The film emphasizes the

terrorist activities. The combination of terrorism and AI technology is an intriguing one, as it could show a contrast between human emotions, like hate, and the cold, calculated power of artificial intelligence in addressing such threats. This could raise interesting questions about the role of technology in modern warfare, surveillance, and security operations.
