# Annual Report on the Implementation of the EU CFSP

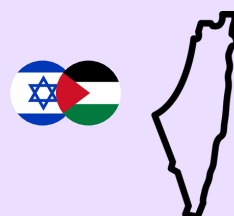

**02 April 2025**

**In view of these challenges, the EU believes it must become a stronger, less naïve, more assertive and proactive geopolitical player.**

**The MEPs are :**

in support two-state solution

concerned over actions in the Taiwan Strait and against Uighur minorities

for the development of an EU Arctic strategy

calling for increased funding for the EEAS

# Commercial rebalancing measures concerning certain products originating from the USA

In response to the reintroduction of US tariffs on steel, aluminum and derivatives from the EU, the Union introduced measures to restore trade balance.

Following failed consultations under the WTO Dispute Settlement Mechanism, the EU decided to reintroduce and extend counter-tariffs on products originating in the United States.

Products :

chemicals

textile

steel

machinery

cosmetics

Applicability :

(1) - 16 May 2025

(2) - 01 December 2025

# ESPR and Energy Labelling Working Plan 2025-2030

**DG ENV**  
Environment

**16 April 2025**

The Working Plan aligns key EU policies like the Green Deal, Circular Economy Action Plan, Clean Industrial Deal, EU Competitiveness Compass).

Make sustainable products the norm

Decarbonise the industries

Empower consumers

Remain globally competitive

It serves as a roadmap (2025-2030) for the implementation of the :

Ecodesign for Sustainable Products Regulation

Energy Labelling Framework Regulation

The products are divided into different categories, each of which has its own targets and focus areas.

It also introduces new mechanisms, such as the Digital Product Passport and the electronic record of sustainability information.
