

The **Ultimate Solution**  
for Tile **Perfection**  
and **Durability.**

Leading the way in Tile Adhesive,  
Epoxy Grout, and Waterproofing for  
modern Construction needs.

# FROM OUR PLANTS TO YOUR PROJECTS

## TRUSTED QUALITY ACROSS INDIA

# ABOUT US

AIRFIX emphasizes that our core strength lies in our extensive practical knowledge and the synergy of our combined expertise. This collaboration fosters innovation and empowers us to develop and launch new products that set us apart in the marketplace, providing us with a distinct competitive advantage.

Our company specializes in developing and manufacturing high-performance adhesive and waterproofing solutions, designed to meet the diverse needs of various industries. With a commitment to innovation and quality, the company utilizes advanced technology and rigorous testing to ensure that its products provide exceptional durability and reliability. Their extensive range of adhesives and waterproofing materials is tailored for both commercial and residential applications, making them a trusted choice for professionals seeking effective and long-lasting solutions.

## VISION

“To become the most innovative and trusted provider of construction adhesive solutions, empowering builders and architects with sustainable, durable, and cutting-edge products that transform the construction industry globally.”

## MISSION

“Our mission is to provide premium-quality construction adhesives and related products that ensure exceptional performance and efficiency in every application.”

# AIR FLOOR FIX ADHESIVE

## DESCRIPTION :

Ready to use grey cement based polymer modified non-shrink, self-curing\ tile adhesive for floor tiles fixing if provides excellent adhesion and waterproofing properties.

## APPLICATION :

Designed For Floors, Wall, interior application etc.

## BENEFIT :

- Excellent waterproofing properties
- Time saving and increase Productivity
- Ready to use only water needs to be added as per site condition
- Flexible to accommodate thermal movement
- Low shrinkage and crack resistant
- Better bond than conventional cement based mortar

CATEGORY	COLOR	PACKING
C1T	GREY	20 KG & 40 KG
COVERAGE		
50-55 SQ FT FOR 20 KG AT 3 MM BED THICKNESS		
30-35 SQ FT FOR 20 KG AT 5 MM BED THICKNESS		

# AIR WALL FIX ADHESIVE

## DESCRIPTION :

wall fix is a Grey & white Cementitious polymer modified tiles adhesive for interior and exterior installation of Ceramic, Vitrified, Natural Stones, Paver & bricks etc.

## APPLICATION :

Fixing absorbent floor and wall tiles outdoors and indoors. The tiles can be made of kota, double fired, Single Fired ceramic, Fixing Poorly absorbent or non-absorbent materials such as single-fired tiles, splite tiles, Refine porcelain stoneware and vitrified tiles, suitable for use when high performances are required, such as tile fixing in industrial environment, fixing of old tiles or natural stone indoors, in swimming pools or on facades, tile on tile application etc.

CATEGORY	COLOR	PACKING
C2T	GREY & WHITE	20 KG & 40 KG
COVERAGE		
25-28 SQ FT FOR 20 KG AT 6 MM BED THICKNESS		

## BENEFITS :

- Good open wet time.
- Excellent adhesion, non-shrinkage
- Excellent waterproofing characteristics.
- High Strength.
- Needs no curing soaking of tiles.
- Easy Application and better work ability.

# AIR MULTIPLE FIX ADHESIVE

## DESCRIPTION :

Multiple fix is a Grey or white cement based higher grade polymer modified high strength flexible tile adhesive for fixing of any type of tiles, slab of granite, marble stable stone, mosaic of all kind including inside swimming pool, on interior and exterior situation.

## APPLICATION :

Designed for fully water resistance and nonslip properties, Excellent for large format paving slabs, Fixing poorly absorbent or non absorbent materials such as synthetic marbles, asbestos cement sheet, split tiles and refined porcelain stoneware, Fixing natural stone, synthetic stone and marble so long as they are not affected by environment.

CATEGORY	COLOR	PACKING
C2 TES1	GREY & WHITE	20 KG & 40 KG
COVERAGE		
23-25 SQ FT FOR 20 KG AT 6 MM BED THICKNESS		

## BENEFITS :

- Suitable for various substrates
- Single component, ready to use
- Enable faster completion of job saving time and money
- Highly flexible yet strong on bond strength
- High slip resistance tile & composite marble and quartz stone
- Suitable for demanding external applications

# AIR PU FIX ADHESIVE

## DESCRIPTION :

AIR PU ADHESIVE is a two-par modified polyurethane multipurpose adhesive for fixing all types of tiles and stones on a variety of substrates in interior and exterior areas on either walls or floor. It has been specially designed for fixing water-sensitive tiles/stones on deformable or absorbent/non-absorbent substrates. PU TILE ADHESIVE is flexible and water, freeze and thermal shock resistant when fully cured.

PACKING	PART A	PART B
4 KG	3.200 KG	0.800 KG
COVERAGE		
30-40 SQ FT FOR 4 KG		

## APPLICATION :

- Wooden/plywood table tops to achieve waterproof substrate.
- Par ticle boards, Plywood, Plasterboards, Gypsum and Fibrecement boards
- PVC, Rubber and linoleum-Epoxy or Polyurethane based substrates-GRP, polyester panels.
- Metal & wood floor and walls

## ADVANTAGES :

Easy to apply  
and light weight

High bond strength

Resistant to  
freezing and shock

Reliable bond to  
all substrates.

Non shrink

# EPOXY GROUT

**AIRFIX EPOXY GROUT**

**GLASS EPOXY GROUT**

**TILE GROUT**

# AIRFIX EPOXY GROUT

## DESCRIPTION :

Air Fix epoxy grout is resin-based epoxy tile joint filler which exhibits stain resistant, chemical resistant, hard wearing & impervious properties. Ideal for use in kitchens, bathrooms & wet areas. Once hardened, the product is ultra high-performing in term of mechanical and chemical resistance.

## MULTIPLE COLOR OPTION :

30+ colors available.

PACK SIZE	RESIN	HARDENER	FILLER
1 KG	200 G	100 G	700 G
5 KG	1 KG	500 G	3.5 KG

## APPLICATION :

Ideal for use in kitchens, Bathrooms, Swimming Pools & Fountains, Hospitals, Operations Theatres, Sterilization Rooms, Restaurants, Cafes and All Light and Heavy Industrial Applications with High Traffic Areas.

## ADVANTAGES :

Durability

Stain-resistant  
grout joints

Color  
Consistency

Waterproof

Multiple  
Colors

Chemical  
Resistance

# GLASS EPOXY GROUT

PACK SIZE	RESIN	HARDENER
400 KG	265 G	135 G

## DESCRIPTION :

Airfix Glass Epoxy Grout is a high gloss, stain free, durable, dust free, anti bacterial and anti fungal epoxy for floor tiles and wall tiles. Airfix Glass Epoxy is a premium quality product designed for use on floor and wall tiles. it is a two-part High-gloss, stain-free, and durable Glass epoxy that creates a seamless dust free, and easy to clean surface. Additionally, it has anti-bacterial and anti fungal properties, making it an ideal choice for areas Where hygiene is a priority Airfix Glass epoxy is available in a wide range of colors. Overall, Airfix Glass epoxy is an excellent choice for anyone looking for a long-lasting, low-maintenance and hygienic solution for their tiles floors and walls.

## APPLICATION :

This Glass Epoxy is easy to apply product a glossy and consistent finish. It bonds strongly to the substrate And creates a strong barriers against water and moisture, making it perfect for areas like houses, Hospitals, laboratories and other high traffic areas. Airfix Glass epoxy is ideally suited for glossy tiles, please apply on matt finish tiles only under expert Supervision.

## ADVANTAGES :

Easy application  
Requires no post-wash

Stain-resistant  
grout joints

Anti-bacterial

Multiple colors

# TILE GROUT

## DESCRIPTION :

Airfix tile grouts is water resistant cementitious tile joint filler for all kinds of tiles. It effectively fills the gaps and levels itself to give hard wearing, non-dusting, tile joints.

## COLORS :

White, Ivory, Black, Terracotta, Coffee Brown

PACK SIZE

1 KG

SHIP PACK

30 PACKS

## APPLICATION :

For filling tile joints in bathrooms, kitchens, internal & external floor & wall tiles. Joins up to 5 mm width tiles.

## ADVANTAGES :

Simple to use

Stain-resistant  
grout joints

No cracking  
or crumbling

Fights fungi  
and bacteria

Various colors to  
match your tiles

# WALL PUTTY

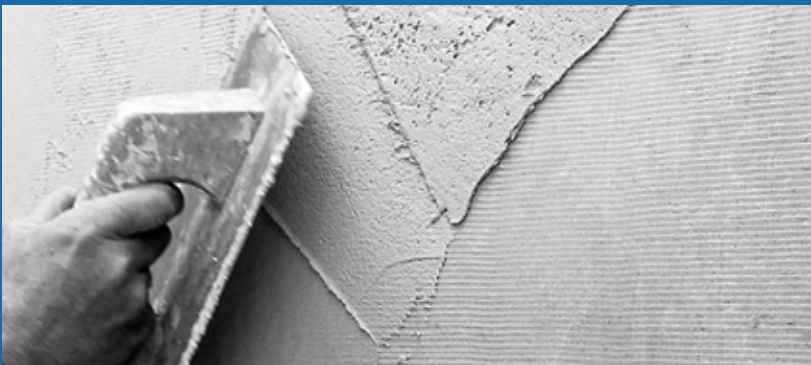

**PACKING**  
**40 KG BAG**

## DESCRIPTION :

AirFix Wallputty is white cement & polymer based fine powder which provides an ideal base for concrete/cement plastered walls and ceilings. AirFix Wallputty is non curing wallputty specially developed as a finish coat to cover unevenness and pinholes in plastered surfaces and to make the walls/ceilling ready for painting. It is also highly water resistance. As it is white colour, it can be treated as a base coat for primer and painting application. Its application gives very beautiful walls which provide a smooth and shine finish for different paints.

# WHITE CEMENT

## DESCRIPTION :

Decorative white cement is a wall decoration material which is blended by high quality white Portland cement by the advanced technology and result characterized by high whiteness, high strength, excellent degree of fineness, good adhesion, high construction performance, high consistency, etc.

**PACKING**  
**1 KG AND 5 KG, WITH 50KG BAG.**

# BLOCK JOINTER

## DESCRIPTION :

ACC BLOCK JOINTER is a non-refractory mortar, used for laying masonry units like AAC blocks. it is a self curing mortar made from cement, selected fine sand and polymeric additives, which ensure good bonding and durable strength between the blocks.

**PACKING**

**40 KG BAG**

# READY MIX PLASTER

## DESCRIPTION :

Ready-mix Plaster is a factory premixed sand based cement Plaster. Same product can be used for both internal & external application. It can be directly applied in single coat on brick / block walls, concrete, calcium silicate blocks, AAC blocks etc.

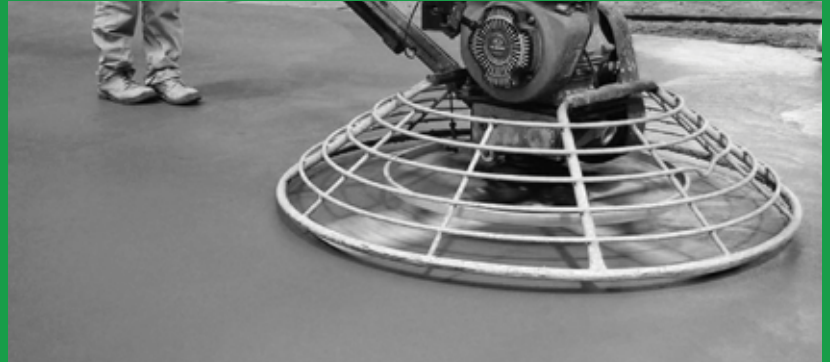

**PACKING**

**40 KG BAG**

**COLOR**

**GREY**

# AIRFIX FLOOR HARDENER

## DESCRIPTION :

AirFix Floor Hardener is composed of best quality ordinary Portland cement, properly selected silica, polymer and additives. It is used as a concrete floor hardener for residential, commercial and industrial floors, because it forms a very high abrasion resistance to fresh concrete floor as a monolithic surface. It improves the strength & impact resistance of concrete floor to allow heavy duty movements.

**PACKING**

**40 KG BAG**

# INDUSTRIAL GROUT

## DESCRIPTION :

AirFix Industrial Grout is supplied as a ready to use dry powder. The addition of a controlled amount of clean water produces a free flowing, non-shrink grout for gap thicknesses up to 100mm. AirFix Industrial Grout is a blend of Portland cement, graded fillers and chemical additives which impart controlled expansion in the plastic state whilst minimizing water demand. The low water demand ensures high early strength. The graded fillers are designed to assist uniform mixing and produce a consistent grout.

**PACKING**

**40 KG BAG**

# WATERPROOFING

**AIRFIX LW**

**AIRFIX SBR PRO+**

**AIRFIX DAMP PROOF**

**AIRFIX CRACK FILLER**

**AIRFIX 2K WATERBLOCK**

**AIRFIX SUPER COAT**

# AIR FIX LW

## DESCRIPTION :

Liquid Integral Waterproofing Admixture for Concrete, Plaster, and Mortar. Airfix LW is formulated with a unique blend of specialized active ingredients designed to enhance the waterproofing capabilities of concrete. It effectively resists water, even under the pressure of hydrostatic conditions and through capillary absorption.

## DOSAGE :

150 MI to 200 MI per 50 Kgs of Cement.

## PACKING

1, 5, 10, 20, 220 LTR

## ADVANTAGE :

- High Protective to water penetration.
- Protection against Sulphate attack.
- Produces highly cohesive concrete and eliminates bleeding.
- The surface finish is improved.
- Confirms to ASTM C 494 Type A & IS 2645 - 1975.

## ADVANTAGES :

Provides strong protection against water damage

Defends against sulfate attacks.

Creates concrete that prevents bleeding

Improved surface finish

# AIRFIX SBR PRO+

## DESCRIPTION :

This product is made from Styrene Butadiene Rubber and is designed specifically for use with cement. It is a high-polymer rubber that works well in cement mixtures for construction projects. It is effective for rehabilitation, waterproofing, flooring, screeds, and toppings.

## PACKING

1, 5, 10, 20, 220 LTR

## APPLICATION :

Airfix SBR PRO+ is a high quality emulsion that substantially increases the quality of cement slurry / cement mortar / concrete / cementitious grout. It works well in cement mixtures for construction projects.

## ADVANTAGES :

Excellent adhesive to reinforcement & Concrete.

Unmatched technical strength

Reduce shrinkage

Protection against water permeability

Improved chemical resistance

# AIRFIX DAMP PROOF

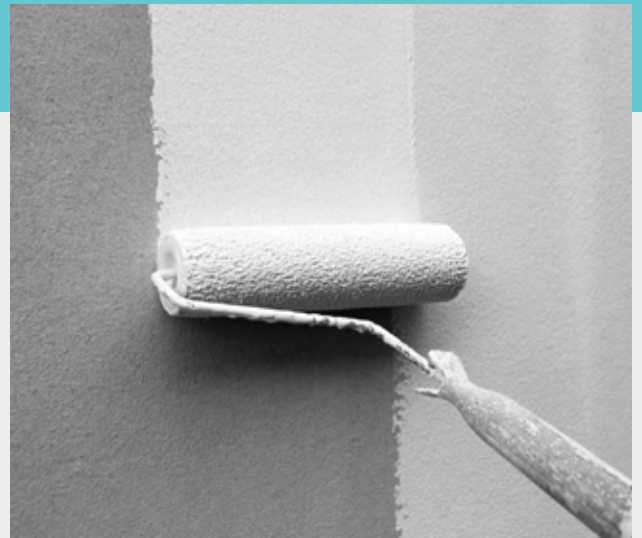

## PACKING

4 LTR, 10 LTR, 20 LTR

## APPLICATION :

- Apply a self-priming coat of Damp Proof (diluted with water in 3:1 ratio).
- Apply two perpendicular coats of Damp Proof without Dilution.
- On previously painted surfaces with high quality exterior emulsion, Apply undiluted coat of Damp Proof.
- Apply top coat emulsion of desired shade then allow it to dry for 4-6 hours between coats.

## ADVANTAGES :

Waterproofing  
Warranty

Surface heat  
protection

Crack proofing

Mechanical strength

# AIRFIX CRACK FILLER

## PACKING

1 KG

## APPLICATION :

Clean the area thoroughly so that it is free from loose dust particles. Post cleaning, treat the opened crack using a primer. Apply the first coat of Airfix Crack filler on the crack using a spatula or putty knife. Press the paste firmly into the crack and level with the surface.

## ADVANTAGES :

Crack filling

Waterproofing

Mechanical strength

High flexibility

# AIRFIX 2K WATERBLOCK

## PACKING

3 KG & 15 KG

## APPLICATION :

- Mix two component (Power & Liquid) using low speed mechanical mixer.
- Apply first coat and wait until dry (6-8 hrs), Apply second coat.

## DESCRIPTION :

Airfix Waterblock 2k is two component acrylic polymer modified elastomeric waterproofing membrane coating for concrete and masonry surfaces.

## COVERAGE :

- Approx 0.6 to 0.75 m<sup>2</sup>/kg at 1mm thickness in 2 coats.
- 70 TO 75 Sqft. in 3 kg

## ADVANTAGES :

Alkali resistant

Anti carbonation

Waterproof

# AIRFIX SUPER COAT

## DESCRIPTION :

Airfix Super Coat is an advanced, high-performance emulsion wall coating, expertly formulated using premium silicone emulsion resin. This innovative coating is designed to withstand various weather conditions, thanks to its durable pigments and water-repellent additives. Additionally, it is fortified with antimicrobial agents, ensuring it provides long-lasting protection against mold and mildew. Perfect for both residential and commercial applications, Airfix Super Coat not only enhances the aesthetic appeal of surfaces but also significantly increases their longevity and resilience.

### PACKING

1LR, 5LR, 10,LR,20LR

### COLOR

WHITE, CLEAR

## APPLICATION :

Apply 2-3 coats of Airfix Super Coat exterior. Follow the recommended dilution ratio for the finishing coat. Allow 3-4 hours for drying between each coat. Use a brush, roller, or spray for application. Use thinner and water, and allow 30 minutes for drying.

## ADVANTAGES :

Easily washable

Scrub resistant

Fungus and  
algal resistant

Uv and heat  
protection

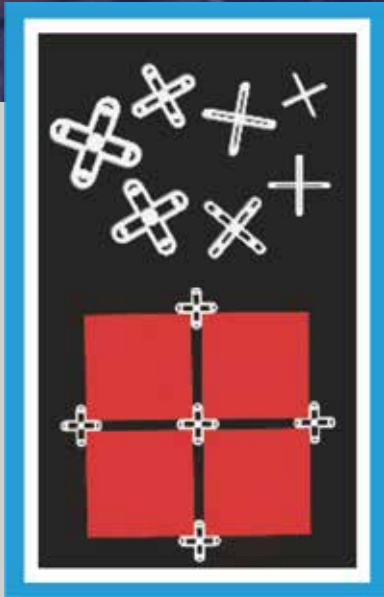

Anti carbonation

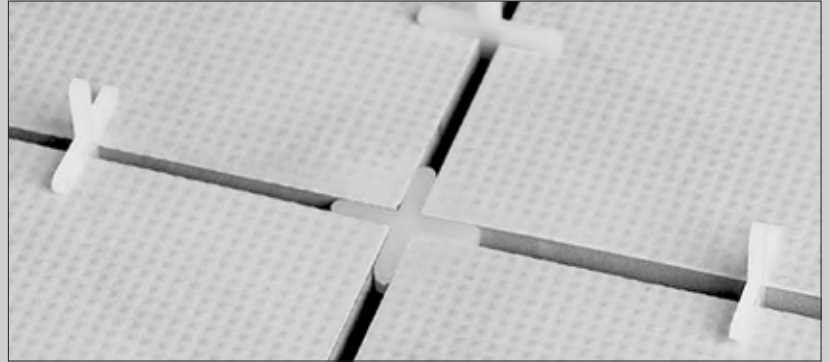

Stain resistance

# TILE SPACER

COLOR

NATURAL WHITE

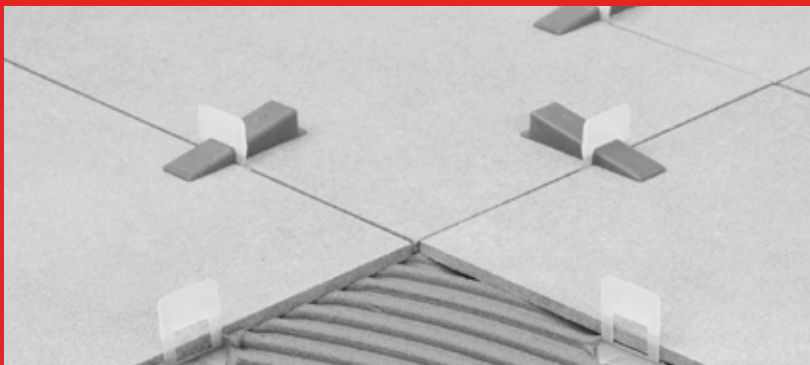

## DESCRIPTION :

Tile spacer helps create even gaps between tiles, ensuring they align properly in the tiling area. You can find spacers from 2mm to 8mm in various widths.

## SPACER SIZES :

2 mm, 3 mm, 4 mm, 5 mm, 6 mm, 8 mm

# TILE LEVELING

## DESCRIPTION :

Ceramic tile installers, particularly for flooring jobs, know that the best possible finishes are achieved using wedges and clips for tiling. Wedges and clips for tiling are manufactured with quality base material and are completely free from impurities and imperfections. Wedges and clips for tiling let you align the slopes and curvatures that can appear with ceramic tiles during tiling jobs.

PACKING

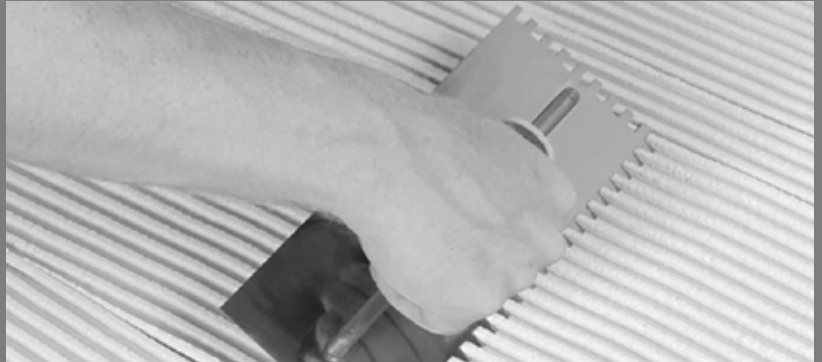

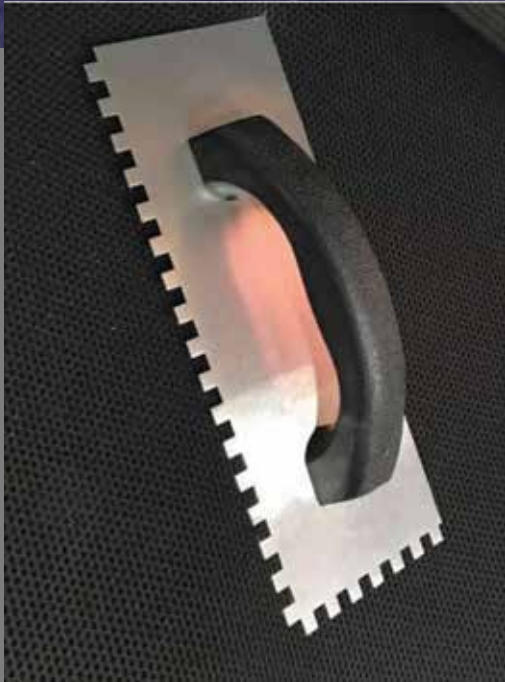

50PCS WEDGES AND 50 PCS CLIPS

COLOR

RED, WHITE, YELLOW

# TROWEL NOTCH

## DESCRIPTION :

Notch Trowel is an application tool that is used to spread tile and stone adhesives at the time of tile fixing. This application tool is manufactured with top-quality material and advanced techniques to make it highly useful in evenly spreading tile adhesives during tile installation.

# TILE CLEANER

## DESCRIPTION :

A powerful, heavy duty, acid - based cleaner for ceramic tiled floors and walls. Tile cleaner is designed for removal of cement film residues, efflorescence and most oxide stains. It may also be used as general purpose cleaner on other acid resistant surface.

## USE :

TILE CLEANER is used for interior and exterior ceramic tiled floors and walls.

**PACKING**

**1 LITER**

# ACRYLIC PRIMER

## DESCRIPTION :

This high-quality alkali-resistant acrylic emulsion primer is ideal for masonry surfaces, ensuring strong adhesion and deep penetration for effective application. Suitable for interior and exterior use, it provides a durable foundation for paint while offering anti-fungal and anti-bacterial protection against mold and mildew. Achieve a lasting finish for your masonry projects with this reliable, water-based primer.

PACKING	COLOR
1LR, 4LR, 10LR, 20LR	MATTE WHITE

# ACRYLIC DISTEMPER

## DESCRIPTION :

This premium acrylic distemper is specifically designed for masonry surfaces, offering exceptional adhesion and deep penetration properties. It creates an outstanding foundation for subsequent paint layers, ensuring a smooth and durable finish. Suitable for both interior and exterior applications, this water-based Air acrylic distemper is fortified with antifungal and antibacterial additives, providing enhanced protection against mildew and bacteria. Its versatility and effectiveness make it an ideal choice for both residential and commercial projects, ensuring long-lasting results.

PACKING	COLOR
2 KG, 5 KG, 10 KG, AND 20 KG	MATTE WHITE

**PACKING**

**25 KG BAG**

# WALL TEXTURE

## DESCRIPTION :

AIRFIX Wall Texture is formulated with acrylic polymer, selected minerals and speciality chemicals for exterior and interior wall surfaces.

## APPLICATION :

Interiors & Exteriors on all types of plasters, false ceiling, asbestos, etc.

## SIZE :

2 mm & 3 mm

## ADVANTAGES :

- Crack Resistant
- High Adhesion Strength and Durable
- Excellent against abrasion and scratches
- All weather proof & water resistant
- Suits for Interior & Exterior
- Aesthetic look for the Elevations with extra shine and long lasting performance.
