## WORK EXPERIENCE

---

### Textron Specialized Vehicles

#### Associate Software Developer

Augusta, GA

August 2022 – January 2024

- Contributed significantly to diverse projects, including augmented reality, web development, and collaborative initiatives like the Problem-Solving App with external vendors.
- Managed key responsibilities such as deployment, testing, creating new databases for the data scientists team, and conducting training sessions for engineers.
- Demonstrated versatility in both technical and collaborative roles.

### UNCW

#### Graduate Teaching Assistant

Wilmington, NC

August 2019 – May 2022

- Handle administrative tasks, including preparation of PowerPoint presentations, data entry and analysis, website development, and collation of presentations.
- Help students during office hours, grading assignments and exams.

## WORK PROJECTS

---

### Problem-Solving App

#### Role: Project Manager and Software Developer

- Led collaborative end-to-end development with a vendor, ensuring effective communication.
- Supervised UI/UX design, and source code deployment, and conducted thorough testing with engineers.
- Tested iOS, Android, and web codes for compatibility across platforms.
- Facilitated weekly progress meetings, managed timelines, and provided essential training to the engineers.
- Ensured overall project success through effective management and development contributions.

### Safety Reporting App

#### Role: Full-Stack Developer and Project Coordinator

- Developed a factory safety reporting website using HTML, CSS, and JavaScript, enabling detailed submissions with images for enhanced reporting.
- Created an efficient process for EHS team members to review and resolve reported safety concerns.
- Introduced a point-based reward system for the submitter and resolver upon approval, encouraging active engagement.

## AR/VR App for Training & Inspection

### Role: Project Manager and Tester

- Collaborated with a vendor to develop an AR/VR app for employee training and inspection purposes.
- Assumed the role of the main tester, conducting regular meetings with the vendor to ensure effective integration.
- Designed and implemented Microsoft Dynamics Guide 365 on HoloLens 2 for training purposes before vendor collaboration.

## TECHNICAL SKILLS

---

**Languages:** Javascript, HTML/CSS, Python, R (familiar)

**Frameworks:** ReactJS, Bootstrap, NodeJS, ExpressJS, jQuery

**Databases:** SQL (MSSQL, MySQL), NoSQL (MongoDB)

**Tools/Platforms:** Git, GitHub, Visual Studio Code

**APIs:** RESTful APIs, GraphQL

**API Testing:** PostMAN, Insomnia

**Test Management Tools:** Jira, Confluence, TestRail, TestLodge

**Development Methodologies:** Software Development Life Cycle (SDLC), Agile Methodology, Scrum

**Microsoft Apps:** Microsoft Dynamics Guide 365, Power Apps, Word, Excel, PowerPoint, Microsoft Access

## UNIVERSITY PROJECTS

---

### Thesis Project - Evaluating Stop Words in Sentiment Analysis of Amazon Reviews

2022

- Built a Support Vector Regression Model to predict the star rating of Amazon review
- Used three different products and the model worked better in the book dataset

### Roommate Matching Website – Front End Developer

2019

- Led a team of 6 members to build a website for the UNCW Abroad Program department
- Followed agile procedures and mostly worked on the Front-End side of the project, helped the team in UX/UI steps

## ADDITIONAL

---

**Soft Skills:** Communication skills, Teamwork, Problem-solving, Critical thinking, Adaptability, Punctuality

**Languages:** Fluent in English, Turkish (Native)

### Certifications:

- Full Stack Web Development Bootcamp Certification
- Software Testing Masterclass Certification

### Awards:

- Problem Solver of the Month in Textron Specialized Vehicles
