

INTRODUCTION

Magnificent Concept, Is a consulting company dedicated to the pharmaceutical industry.

Magnificent provides end to end engineering & consulting solutions starting from concept to commissioning. Broadly, it includes services like **Conceptual design, Civil Structural & Architectural design, Basic engineering, Process engineering, Value engineering, Detailed engineering, Procurement assistance, Qualification documentation, FAT & Validation** services along with **Site management**. Our talent pool is a mix of engineers & Quality who can understand the clients' project needs starting from chemical synthesis or fermentation to the execution of USFDA/EMA / PIC/ ANVISA & other global regulatory compliant facilities as per c GMP & GAMP design. We can offer you our services starting from a simple OSD project to a complex multiproduct project.

Magnificent Concept, India operates in focused segments of Pharmaceutical in India. Magnificent Concept is located in Vadodara Gujarat and delivers under continuous technical supervision/collaboration of Magnificent Concept, Finland.

Magnificent Concept, has put in sedulous efforts for years on R&D of tools for project management, design, documentation and quality of workmanship.

We design, engineer & build facilities with due consideration to overall plant efficiency & compliance utilizing cost & energy saving parameters thereby reducing the overall footprint and optimizing operating cost without any compromise on compliance or final quality of the product.

We have had the privilege of working on several projects of different complexities with eminent companies like (about 05 different projects in various locations), DRL, Alkem, Intas Pharma , IPCA, Gracure pharma & Brawn Laboratories many others india.

INTRODUCTION

Value added services from Magnificent Concept

Magnificent Concept, offers end to end services delivery solutions as listed under:

1. Pre-Concept Studies
2. Site Master Planning
3. Concept Engineering
4. Civil & Structural Design
5. Architectural Design
6. Process Engineering
7. Basic Engineering
8. Validation Master Plan
9. Purchase Consultancy & Procurement assistance
10. Detailed Engineering
11. 3D Modeling (Plant Snapshots & 3D Virtual Walkthrough)
12. Qualification Documentation (Review & Preparation)
13. Pre FAT, FAT & SAT services
14. Validation Execution at Site
15. Site Supervision & Management
16. Assistance in Technology Transfers & Product Dossier
17. GMP Audits & GAP Analysis Report for Regulatory Guidance
18. Revamping of existing facilities to cGMP compliant facilities
19. Training and Knowledge Sharing
20. Equipment's Qualification/Validation study.

INTRODUCTION

21. All departments SOPs.
22. Water System Qualification.
23. Cleaning Validation Study.
24. Process Validation study.
25. Clean & Unclean Equipment Study.
26. Temperature Mapping.
27. Other Supporting documents.

We believe the above description gives you a brief insight into Magnificent Concept's operations and its services therein for the pharmaceutical industry, and we look forward to working together with you for your upcoming Greenfield, Brownfield projects.
