

# THE RED HORSE OF THE APOCALYPSE

## The April 2, 2004 vision of the Lord:

And the creature like an ox released him:.....

On April 2, 2004, the Lord presented me with an exceptional vision in which I saw the release of the horseman of the red apocalyptic horse. In that vision, I saw the red apocalyptic horse from heaven with his rider greatly traversing across the earth. This was first time the Lord Almighty presented to me the vision of the red horse of the apocalypse as he was released from heaven. In that April 2004 vision, the Lord showed me the rider of the red horse holding a sword and moon turned blood red as the rider of this red horse paced across the earth and wherever he passed, there was a trail of a lot of blood. I saw within the glory of the Lord the creature like an ox release him. What was most astounding of the rider of the red horse is the ultrasonic high speed at which he traversed the land across the earth, to the extent that one would think he is seeing more than one red horse. And that is the reason in that March 2005 newspaper reportage I mentioned that I see what appeared like several red horses traversing the earth, and yet it was just one mighty red horse traversing the earth at an ultrasonic speed, to the extent that no sooner had you seen him at this corner, than he appeared from this other corner. And when this red horse hit the seas he split them open like a high-speed cruise ship with water splashing on both sides and the back as it makes it way through. This caused me to truly understand the gravity of what his impact would be on the earth. Further to this, the red horse spots a very important unique feature that is only exclusive to itself. These are the blue flame-like feet that cover close to his hooves. It caused me to publish this revelation into a christian newspaper. In that March 2005 article of the christian magazine, I clearly elaborated on how this red horse was going to unleash untold suffering among the peoples of the earth. Together with other aspects of his release, in that March 2005 edition of the newspaper, I described the deplorable bloodshed that was coming to visit the earth, to the extent that I called it **BLOOD, BLOOD, BLOOD**. Surprisingly, come the March 17, 2008, the Lord once more reminded me of the vision of the horseman on the red horse and his most disturbing impact on the earth. This was meant for me to alert the entire earth of the red horseman's ongoing manifestation on the earth. In that vision too, the Lord showed me how he was still criss-crossing the earth in a mighty way. I definitely knew that this would mark a new high for the beginning of birth pains. In that same vision, the Lord showed me a sackcloth made out of pure sisal and having three green lines running parallel along its back. In this vision he audibly yelled out,

**It is a command!**

**It is a command!**

**It is a command!**

This greatly implied that it was indeed a command of God to repent in Christ Jesus wearing the sackcloth. It was the most vivid evidence yet, that the horrendous beginning of birthpains that has come with the horsemen of the apocalypse, the red horseman notwithstanding, could have been avoided if mankind returned to the Lord in repentance. That mighty voice of God in the vision, also clearly shows that, it is the disobedience of men together with their godlessness and the corruption in the church, that has caused the Lord to release the horsemen of the apocalypse with a much greater impunity. The Lord had to release the apocalyptic horsemen anyway, to fulfil bible prophecy towards the fullness of time and the return of the Messiah, but the church would have been in some way divinely shielded from their horrific effect, had the church lived in the holiness and the fear of the Lord. Moreover, the mighty voice of the Lord that yelled saying it is command to repent, shows yet another time that the four horsemen are sent to do war against mankind because of the current controversy of sin and godlessness that reigns between man and God.

## REVELATION

The first horse, a white one, while being the least understood is perhaps the most important because it produces the most insidious destruction called universal religious deception (2 Cor 11:14). And yet we see that the other three horsemen are also heavily involved in, and influence this world's sufferings including false religions. Few people truly comprehend the gravity of the four horsemen, because only a few are able to listen to the Holy Spirit and his interpretation which is the vital key to understanding the novel book of Revelation. The deceived followers of the man on the white horse go forth conquering and to conquer based on their erroneous belief that the white horseman has imparted. This directly overlaps with the second horseman of the apocalypse, the red horse whose name is war. This second horseman has today wrecked phenomenal havoc on mankind with constant wars that have consumed the entire globe. Matthew chapter 24 shows that in the Olivet Prophecy Jesus himself hinted that the fulfilment of these prophecies would still have to bring a desperate time in which human annihilation would be a real threat. But, in that prophecy what stood out most is when the Lord Jesus forewarned of wars that would be upcoming in the dispensation prior to his return for the church. Whilst some may argue that man has always had wars on the earth, it is important here to emphasize that the kinds of wars Jesus of Nazareth was referring to, were those that would be historic on their own merit, having not visited the earth before;

6And ye shall hear of wars and rumours of wars: see that ye be not troubled: for all these things must come to pass, but the end is not yet. 7For nation shall rise against nation, and kingdom against kingdom: and there shall be famines, and pestilences, and earthquakes, in divers places (Matthew 24:6-7).

The translation of this prophecy is obtainable from the book of Revelation chapter 6 verses 3 and 4.

3And when he had opened the second seal, I heard the second beast say, Come and see. 4And there went out another horse that was red: and power was given to him that sat thereon to take peace

from the earth, and that they should kill one another: and there was given unto him a great sword (Rev 6:3-4).

The rider of the red horse is called war and the red colour that his horse sports plainly represents war with its most horrendous effects of bloodshed. When Jesus gave this prophecy, it greatly underscored the season in which two kinds of wars would consume the earth. It essentially acts as an admonition against the sin and godlessness that have taken over the earth. The first kind of war that the Lord referred to here, is that type of war that we see today being fulfilled in Somalia, with a random and sporadic violence that at times even seems senseless. The earth today has since seen lots of these kinds of wars as the rider of the red horse criss-crosses from one nation to another. For instance, the war in the Democratic Republic of Congo, the Rwanda genocide, war in Sierra Leone, the war in Liberia, the post-election violence in Kenya, the xenophobia in South Africa, the war in Northern Uganda, the war in southern Sudan and Darfur, the drug wars in Colombia, the war against the Tamil Tigers in Sri Lanka, the war in Bosnia, the war in Chechnya, the war in Phillipines, the war in Indonesia, the war in India, the war in Tibet among others. These constitute the first kind of wars that Jesus foretold in the Olivet prophecy, the fulfilment of which arises from the breaking of the second seal of the scroll. However, when Christ breaks the second seal of the scroll, there is more to war than just the first aforementioned group. The Lord in his Olivet Discourse also promised that during the last days nation would rise against nation. And this is what has given rise to the second cadre of wars that have now equally plagued the earth. Such wars include the war in Iraq, the war in Afghanistan, the Israel-Lebanon war, the Kashmir war etc. They also encompass the upcoming nuclear war in Iran in which the nuclear facility by the mountain side will be struck with two missiles from Israel (The Sept 2005 vision). The North Korea nuclear conflict too fall under these types of war. Though the world has already survived two major wars, these endtime war that Jesus forecast would be more horrific than had been thought before. And given that mankind has never designed and built weapons that he did not eventually use, then the Lord surely even pointed towards a possibility of a nuclear conflict. Today nations are pacing towards nuclear powership, with submarines, laser-guided bombs, tomahawks, name it. Surely, the man of the red horse, with his sword in the hand has done colossal damage across the earth by taking away peace from man. The war on terrorism is one war that has now eventually recruited all nations of the earth into a war stance. It is as though every nation on the earth is anticipating a terrorist attack in one way or the other, or simply just preparing in case things get out of hand. This war on terrorism is what has eventually fulfilled the Lord's prophecy on the rumours of wars that he said would consume the whole earth. War has become invincible to the extent that the horseman of the red horse must now be bearing a sword that is tainted with a lot of blood and coated with human fat. The political military and economic polarization that has today formed power block across the earth seems to be the catalytic agent that is building up the recipe for wars across the earth. Economically, wars like those witnessed in Nigeria are literally arising from a welfare conflict between the haves and have-nots. Same thing applies to D.R. Congo with its minerals. The wars of this endtime have claimed an unprecedented number of deaths across the global population. These dreadful and frightening events would not be necessary

at all if man would turn away from his evil ways of war, disobedience to God, false christianity, false religion, vanity, greed, immorality and sexual sin, witchcraft, the gospel of prosperity without holiness and all agents that produce man's worsening state of decay. With a deep heart-rending repentance by mankind towards Jehovah His Creator, the effects of the blood-red second horse would have been ameliorated; except that now the nations of the earth have proven their unwillingness to repent and return to God. And the rider of the red horse must continue riding on as he conquers more and more territories with his sword becoming more and more tainted with blood and human fat. This second horseman of the apocalypse must ride roughshod to teach man a very painful yet necessary lesson about the consequences of the wounds of sin. However, the beauty of it all is that the elect of God need not be unduly alarmed or frightened because their holy and righteous walk which pleases God, earns them divine protection from the mayhem. As this global insanity goes on with relentless wars, the elect of the Lord however, will always be protected to the extent that the effects of the red horseman will not be permitted to run its course in their lives. The very elect of God will be provided with a place of protection from this tempest events.

10Because thou hast kept the word of my patience, I also will keep thee from the hour of temptation, which shall come upon all the world, to try them that dwell upon the earth (Rev 3:10).

We can lay claim to these promises if we qualify as God's very elect in the holy ways of our christian walk. The very elect of the Lord surely do not suffer the consequences of the effects of the second horseman because they are not taken in by the spiritual deception of the first horseman. The 2006 Israeli-Hezbollah war was one of the most horrific conflicts that the planet has seen. In that war, there was tremendous collateral damages in which several high-rise apartment buildings were flattened, office buildings wiped out as the Hezbollah continued to tighten their war stance. Israel however, was fighting for her safety following non-stop cascades of Katyusha rockets that made life in the northern part of Israel a total nightmare. This affected towns such as Metulah and even upto to Nahariyah. And because the Jewish state is sandwiched by a multitude of enemy nations, they were compelled to go into Lebanon to demolish the missile launching pads in order to restore calm in Northern Israel. The Iraq war too has gradually mutated into a ceaseless senseless conflict in which several nations are involved, and their own internal bloodletting between the Sunni and the Shi'ites groups. The amount of blood that has been shed in Iraq is what clearly paints the portrait of the presence of the second apocalyptic horseman on the red horse. The Afghanistan war too now threatens to buildup as a well-fledged conflict on its own merit, whose end may not be in the horizon as of now. The Taliban against the rest of the world and the Taliban against the Pakistani government, has really fulfilled this prophecy of the release of the horseman of the red horse. All these wars and conflicts around the globe do emphasize one thing; that the horseman of the red horse was truly given power to take away peace from the earth and cause men to slay each other (Revelation 6:2-3).
