Baluster Table | *MOR033*

The side stand features a round top with grooves running round and a pedestal-style sculpted leg in mouldings that tapers down to a round base as a classic furniture leg resembling a baluster. The tables are finished in grey and charcoal stains with PU polish and dull teak and brown stains, retaining its classic nature.

Round Table | *MOR033*

Crafted in Ashwood with dull teak and walnut stains mixed with black and brown as grain highlighters, this side table with circular top on legs sculpted with curved sections stacked by interlocking, with each part performing its tectonic function in relationship to the next offers the perfect perch to rest a drink or books awaiting to be read again.
