

Splice Tray 24-cores

Features:

- Made of industrial-quality high-quality ABS plastic, the FTTH 24 Cores Fiber Splice Tray is provided to place the fiber splice points and is pre-terminated for fiber connectivity.
- The Fiber Splice Tray expands fiber splice capabilities and provides the splicing location for fiber optic cables.
- It can be placed in the fiber distribution frame, fiber splice closure, optic terminal box, etc.
- FTTH 24-core fiber splice tray is a perfect solution for small hole splicing and is perfect for small holes, such as 2.5mm, 3.5mm, 4.1mm, and 5mm.
- This fiber splice tray has the advantages of good heat distortion resistance, high impact resistance, steady structure, and so on.
- We can offer various sizes and colors of the fiber splice trays for CCTV, data center, fiber optic splicing, and termination.

Technical Data

Materials	ABS
Capacity	24-core splices
Dimensions (mm)	220x103x15
Cover	Included with Labeling
Management	Included with enough space
Oening & closing	Easy opening & closing
