Who We Are?

Welcome to New Era Aluminium Louvres, a premier manufacturer and supplier of premium louvre systems for residential and commercial properties. With years of experience in the industry, we have established ourselves as a trusted provider of innovative and high-quality louvre products that are designed to enhance the aesthetic appeal, functionality, and sustainability of buildings. Our team of experts is dedicated to providing exceptional customer service and personalized solutions that cater to the unique needs of our clients. At New Era Louvre, we are committed to helping you achieve your architectural vision with our state-of-the-art louvre solutions.

Why Aluminium louvres

Aluminium louvres are a preferred choice for many applications due to their durability, resistance to corrosion, low maintenance, energy efficiency, and customizability. They are also lightweight, easy to install and transport, and come in a range of colors and finishes to enhance the aesthetics of any building.

Holder

01 *Louvre Facade Panel*

Whether designing a commercial or residential building, the Louvre Facade Panel is the perfect solution for achieving a modern and energy-efficient design that stands out.

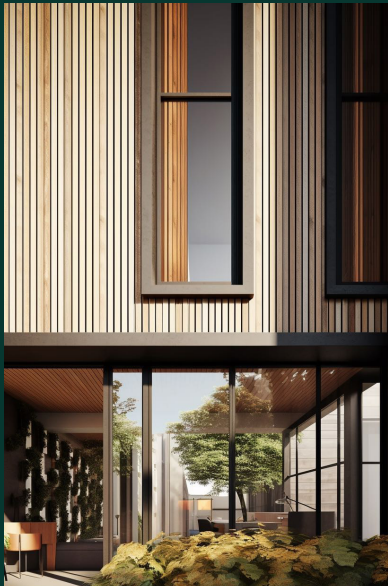

- Customizable blade pitch and angle for optimal ventilation and light control
- Various panel sizes and shapes that can be configured to meet the specific needs of building design
- High-quality materials such as Aluminium and stainless steel, providing durability and longevity
- Engineered to meet the highest standards of quality and sustainability, including LEED certification requirements

02 *Window Shroud*

Enhance the functionality and aesthetic appeal of a building's exterior with premium Window Shrouds. These expertly crafted shrouds offer a range of features:

- Optimal sun shading and privacy benefits
- Variety of fixing brackets for easy installation on any type of cladding
- Custom sizing options, including thinner profiles starting from 20mm wide, ensuring a perfect fit for your home

03 *Sliding Screen*

The Louvre Sliding Screen features adjustable louvre blades, smooth sliding panels, and durable materials with various finishes for customization.

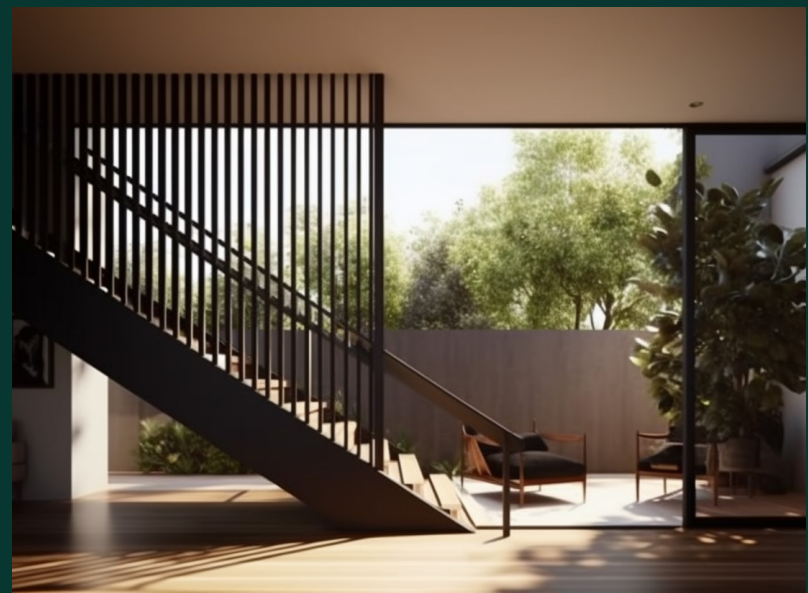

- Adjustable louvre blades for sun shading and ventilation control
- Locking mechanism for safety and security
- Durable materials (Aluminium frames, stainless steel components) for outdoor resistance
- Variety of finishes for customization and color coordination

04 *Stairwell Partition*

Designed to transform stairwell areas into visually appealing and functional spaces, these partitions offer a multitude of benefits for both residential and commercial settings. With their sleek design, durability, and versatility, Aluminium Stairwell Partitions have become a popular choice among architects, designers, and property owners alike.

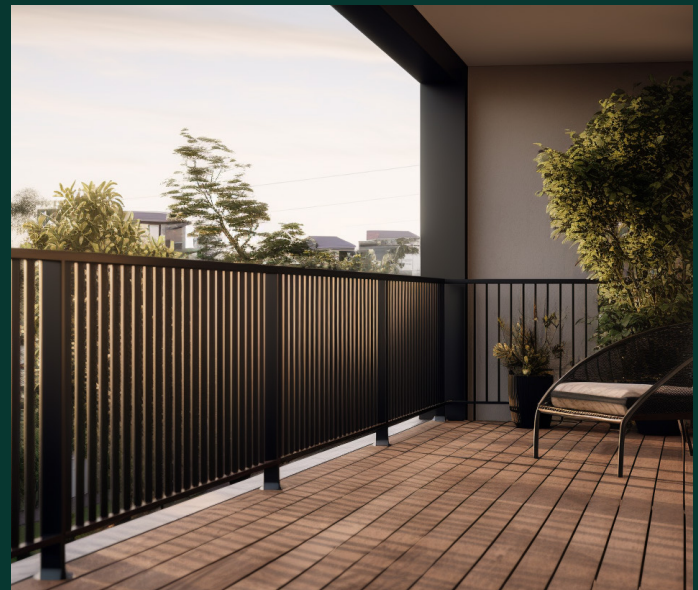

- Aluminium Stairwell Partitions provide a secure division of spaces while enhancing the overall elegance of the architectural design
- With their sleek design, these partitions complement contemporary architectural styles, adding a touch of sophistication to stairwells

05 *Balustrade*

Aluminium Balustrade is a modern and stylish product designed to add both safety and aesthetic appeal to any outdoor or indoor space. Its sleek design complements any architectural style and offers an unobstructed view of the surroundings.

- Sleek and modern design to complement any architectural style
- Provides safety and aesthetic appeal to any outdoor or indoor space
- Made from high-quality aluminium for durability and longevity

06 Canopy

- *Adjustable Louvre Canopy*
- *Fixed Louvre Canopy*
- *Folded Aluminium Canopy*

The Aluminium Folded Canopy and Louvre Canopy offer a perfect solution for any outdoor space looking for shade and shelter. Their modern and sleek design complements any architectural style and is made from high-quality Aluminium for durability and resistance to outdoor elements.

- Simple and fixed design providing shade and shelter
- Modern and sleek design complementing any architectural style
- Easy installation and customization to fit any space or design requirements
