

PLASMA MADE[®]

Absolute Science

Cleaner Air. Sleek Design. Zero Maintenance.

Discover Plasma Made USA – A Revolutionary Ventilation Filter for Modern Homes

We're proud to introduce **Plasma Made USA** – a game-changing, patented ventilation filter for kitchen hoods that's now available in the U.S. market. Whether you're designing, building, or living in a modern home, this innovative system offers the ultimate solution for clean indoor air—without the need for ductwork or replacement filters.

Why Plasma Made USA?

- ✓ **Ductless & Easy to Install** – Perfect for open-concept kitchens and modern designs
- ✓ **No Filter Replacements** – Maintenance-free for years
- ✓ **Removes Odors, Grease, Bacteria & Pollutants**
- ✓ **Energy-Efficient & Eco-Friendly**
- ✓ **Quiet & Discreet Operation**

For homeowners, it means **healthier air and a cleaner kitchen**.

For architects and builders, it's a **versatile, space-saving solution** that fits seamlessly into any kitchen design.

Learn more at www.plasmamadeusa.com.

We'd love to connect if you're interested in incorporating Plasma Made into your showroom for your next project. At the IBIS show in Las Vegas this past February, Builders and Developers loved the engineering behind the development.
