EXCELLENT CRAFTSMANSHIP

EUROPEAN BATHROOM FIXTURES

UNIQUE BATHROOM FIXTURES FROM EUROPEAN PARTNER BRANDS

In 1996, marble and natural stones were the primary luxury materials used in high-end bathroom design, while materials such as wood, crystal, leather, solid surface, and other innovative finishes were unheard of. PSCBATH was founded with a clear mission: to bring the elegance and quality of European bathroom fixtures to the US and Canadian markets.

Today, PSCBATH is an import distribution company providing exquisite bathroom fixtures to a discerning clientele of architects and designers through a network of high-end dealer showrooms across the US and Canada. For over 25 years, [PSCBATH](#) has been a trusted name in luxury plumbing. Our company maintains an exclusive partnership with a select group of European factories that produce bathroom fixtures of unparalleled quality and innovative design, ensuring the long-term development and growth of these brands in the US and Canada. We work with architects and interior designers to deliver tailored solutions and exceed expectations—offering unique, cutting-edge fixtures that set every project apart.

A deep appreciation for craftsmanship, design excellence, and meaningful innovation drives our vision. We curate and supply distinctive products that merge functionality with contemporary elegance—ranging from sculptural freestanding bathtubs and refined shower fittings to artisanal washbasins and designer towel warmers. Each item in our collection is thoughtfully chosen for its superior quality, aesthetic impact, and performance.

At [PSCBATH](#), every new product reflects our commitment to supporting architects and designers in shaping remarkable, lasting spaces. Whether crafting a spa-inspired sanctuary or a bold architectural statement, our curated collections—from statement sinks and elegant tubs to exclusive outdoor wellness features—unlock new creative possibilities.

We don't just elevate bathroom design—we help you transform the everyday into the extraordinary.

We invite you to discover a quick overview of our product lines then continue browsing our website. We are looking forward to engaging in fruitful conversations to carry on offering premium bathroom fixtures to the select group of high-end decorative plumbing showrooms catering to the trade professionals and discerning homeowners.

CINIER product lines are characterized by a very high level of craftsmanship and design.

CINIER is the only company in the world producing a collection of radiators made with Olycal stone since 1990.

In addition to being respectful of the environment, using only natural pigments to create the colorful designs, CINIER radiators offer the highest level of technology, quality of fabrication and creativity to deliver excellence in the art of heating.

CINIER radiators are engineered to operate with both hydronic and electric systems.

The Olycal stone used in the CINIER radiators allows them to be heated at a low temperature to maximize energy efficiency.
