Mr. Rauf Mammadov, a prominent member of the EUPMO training team, provided an in-depth exploration of Erasmus+ KA2 and Jean Monnet Projects, highlighting their operational procedures and significance in European education and international cooperation. His expertise greatly benefited EUPMO trainers, enabling them to better assist project participants.

Through interactive discussions, Mr. Mammadov elucidated key principles and strategies, empowering attendees with practical knowledge. Participants praised his expertise and engaging delivery, recognizing the value of the session for their professional growth. This initiative reflects EUPMO's commitment to continuous learning. Mr. Mammadov's lecture marks another successful step in EUPMO's educational journey, enhancing the organization's ability to handle European projects proficiently.
