EFFECTIVE PROJECT MANAGEMENT IN THE EUROPEAN UNION: BEST PRACTICES AND CASE STUDIES

NAVIGATING THE EU FUNDING LANDSCAPE

In a landscape teeming with opportunities for students, researchers, young professionals, NGOs, and policy makers, knowledge about available EU grants remains limited. Even those aware of these opportunities often find the application process challenging due to dispersed information channels such as National Agencies, EU Commission, and EU Delegation.

OUR PROPOSED MODULE AIMS TO BRIDGE THESE GAPS BY EQUIPPING PARTICIPANTS WITH THE NECESSARY UNDERSTANDING, SKILLS, AND COMPETENCES RELATED TO EU EDUCATION AND RESEARCH PROGRAMS, AVAILABLE GRANT OPPORTUNITIES, AND PROJECT MANAGEMENT.

WHO CAN BENEFIT?

The module caters to students from diverse disciplines, young researchers, NGO members, and select policy makers. It's a unique opportunity to fill a void as this type of module is currently unavailable at universities in Azerbaijan.
