Beam: 10' 7"
Max Draft: 2' 10"
Deadrise: 24 degrees

WEIGHTS:

Weight: 14,500 lb.
Displacement:

DESCRIPTION:

The Deep Impact 399 is redefining what power boating is meant to be. The 399 Sport offers the most interior cockpit space of its size range. Add in performance and a soft ride, and you will see why the newest 399 has no equal.

Features abound with plenty of comfortable seating, ample amounts of space and storage throughout the cockpit. When looking for speed, handling and fuel efficiency, this boat has always been recognized as a performance leader.

Deep Impact is a company that cares. They prove this by limiting the number of boats brought to the public each year. This enables the company to focus on the individual needs of the customer rather than mass production. The latest in the company's offerings comes in the form of the Deep Impact 399 Sport boats.

FEEL THE POWER:

The most notable feature of any power boat is the motors that propel it across the water. The Deep impact 399 Sport boat is among the fastest boats on the market today due to the quadruple motor setup. The engines have been recently serviced and are still under warranty for one more year with option to extend!

AT THE HELM:

The captain of the boat has to be in full control at all times, and on board here the captain is king. The helm design makes the vessel easy to use with integrated large navigation screens and overall ergonomic design. Unlike other helm designs on the market today, the Deep Impact 399 Sport boat was designed with a recessed dashboard. It enables the spray from high speeds to stay away from the features and allows them to last much longer than the standard flat design. It also allows the captain to be in complete control with an always clear view of the screens within the helm.

SPACE BELOW:

Many center console boats leave out the need for below deck space. The designers at Deep Impact know that although the sun is a friend, it can sometimes be too much. An interior cabin was designed for the utmost in comfort, and is well-appointed with a sink, toilet, space for a television, and a comfortable and convertible full-sized berth.

This boat is always stored at a covered indoor yacht storage facility in North Miami, FL. The Haulover facility has dry dock and is \$2400/month.
