It is most reliable and trending way to put your logos on to the clothes. Almost all the fabrics can be embossed also there `s a one time development cost to make the dye.

3D EMBROIDERY

3D Embroidery, also known as puff or foam embroidery, is a technique of garment decoration where the surface of a design is raised up off the fabric in order to give it a 3D look. We do this 3D embroidery process in-house. The overall process involves a foam that is inserted under the top stitch of a fabric in order to raise the surface and make the embroidery design look 3D
