Think of this: The Romans intended crucifixion to be:

- 1-Unspeakably Cruel**
- 2-Mercilessly lingering-** men would often last a day or more on the cross
- 3-Inescapably public** – again, to hinder any seditious impulse in the citizenry
- 4-Publicly certifiable-** death had to occur visibly and undeniably on the cross so that the rumor would not get started that the seditious had somehow survived, and the rebellion should go on.

Thus, crucifixion was always on a low hill outside the main city gate because a gate is a bottleneck - a person going into/out of the city must pass that way. Jesus is forced to carry the horizontal piece of the cross to the place of execution, just outside the main gate on the north of the city of Jerusalem.

I chose you
AND APPOINTED YOU ...
so that whatever you ask in my name
the Father will give you.
