关于荣文 ABOUT RONGWEN

太仓荣文合成纤维有限公司拥有 4 条双组份复合纤维, 5 条差别化涤纶纤维生产线。具有年产 7 万吨涤纶纤维的生产能力, 是国内最大的双组份涤锦复合超细纤维、双组份复合弹性纤维、功能性涤纶纤维等差别化纤维的生产基地。产品品种涵盖常规有光、消光涤纶纤维, 功能性涤纶纤维与 PBT/PTT 弹性纤维, 双组份复合纤维三大系列。

Taicang Rongwen Synthetic Fiber Co.,Ltd. have 4 poly/nylon microfiber product lines and 5 different polyester microfiber product lines,so that we can provide 70000 tons of polyester,and now we are the biggest different polyester microfiber production base of poly/nylon microfiber,poly/nylon elastic fiber and fuctional fiber in China.Product covers three major series:conventional light fiber,Dull polyester fiber Functional polyester fiber and PBT/PTT elastic fiber,Bicomponent fiber.

文化理念 CULTURAL CONCEPTION

创新 Innovation

不断创新，提供品质优良、价格合理的多样化产品，紧跟时代潮流，满足客户需求。
Satisfying customer's demand through continuous research and development to provide varied product of superior quality at reasonable cost.

顾客至上 Customer Oriented

价值观 Value
诚信 Integrity
卓越 Excellent

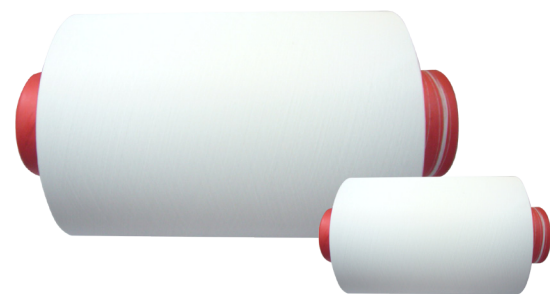

经营模式 Operation Mode

荣文产品流程跨越纺丝、加弹、织造、染色、缝纫，发挥上下游垂直整合的优势，并突破传统化纤品的限制，发展一体化经营模式。
Advancements beyond traditional synthetic yarn product limitations by developing integration management through superiority of vertical integration of spinning, texturing, weaving, dyeing and sewing.

产品系列 PRODUCT SERIES

清洁用品系列
Cleaning series

质地柔软，吸水性好，使用方便，省时省力，多用于清洁汽车、厨房用具、家俱、宠物等。型号、尺寸、颜色、克重可根据客户需求生产并不断开发新产品。

Soft texture and excellent absorbability. Easy to use and saves time. Ideal for washing, kitchen, furniture or even cleaning your pet. We can produce and develop new products according to your requirements such as type, size, color or weight.

- 经编布 Warp Knitting Cloth
- 双面绒 Dusting Cloth
- 珊瑚绒 Coral Fleece
- 玻璃布 Glass Cloth
- 麂皮绒 SUEDE Fabric

具有普通棉质毛巾 5 倍以上的吸水性，强力去油污功能，清洁过程中不抽丝，不伤物体表面，无划痕，无毛絮，适合汽车、家具的清洗、擦拭、上光及厨房用品的清洗。

The moisture penetration is five times than that of cotton. It is excellent for removing greasy stains. It will not damage surfaces and will leave no Marks Ideal for car washing or furniture and kitchens cleaning.

 珍珠布 Pearl Cloth

卫浴系列 Bathroom-function

浴巾： 具有超强的吸水性，不掉毛，抗菌抗霉。柔软蓬松，手感舒适，耐用性强，令肌肤舒适无比。

浴帽： 只需三分钟便可令湿发快速干爽，免用电吹风，给头发天然的保护，将您从繁琐的头发护理中解放出来！

浴衣： 具有超强的吸水性，手感柔软，色泽亮丽，不抽丝，可快速吸干身体表面的水珠，令肌肤清爽、舒适健康。

美容巾： 采用高科技超细纤维纺织材料织造，无毒无害，健康环保。可深入毛孔根部，彻底清除污垢。化妆品残留物，令肌肤光滑洁净。

地巾： 超细纤维具有超强的吸水性，手感柔软，色泽亮丽，防滑抗菌，产品美观实用。

搓澡巾： 经过特殊的工艺处理，温柔地呵护您的肌肤，有效轻柔地去除身体老化角质层，让您的肌肤常保柔嫩光滑。

Bathroom-function

Bath Towels: Strong water absorbability no piling and fluff. It is antibacterial and will never become moldy. It is comfortable, durable and will remain soft even after washing many times.

Bath caps: Only needs three minutes to make your wet hair dry. This avoids the need of a hair dryer, thereby protecting your hair from becoming dry and brittle and also saving your time.

Bathrobes: Super water absorbability, soft, colourful, and no loose threads. It's healthy and comfortable.

Cosmetic towels: Made of high-technology microfiber, they are safe and healthy. The tiny microfibers sweep dirt from the pores when removing makeup. They plump up your skin and leaves it glowing with renewed radiance.

Floor Mats: Super water absorbability, soft, colourful. Skid-proof antibacterial. This is an extremely practical item.

Scrubbing towels: Using a special technique, it can protect your skin gently and effectively, removing dead cells.

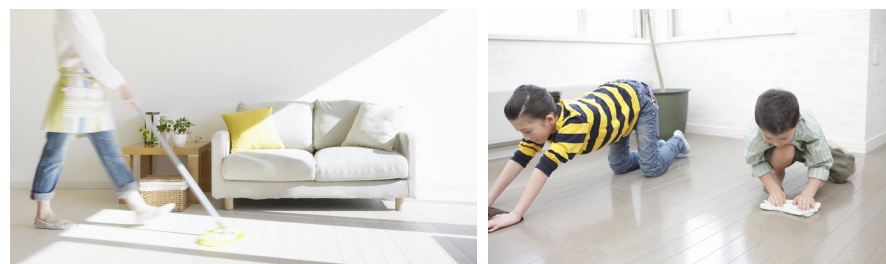

地拖系列 Mop Series

>>> 线绳 Strand

超细纤维拖把清洁居室更方便、快捷。能够充分的吸附灰尘、水分,并可以轻松的安装、使用、清洁和保养。同时,可根据不同用途选择不同面料,做不同的拖头。

Microfibre mops make cleaning easy and quick. It can fully absorb both dirt and moisture. Easy to install, use, rinse and maintain. There are a number of different types of mops to choose from.

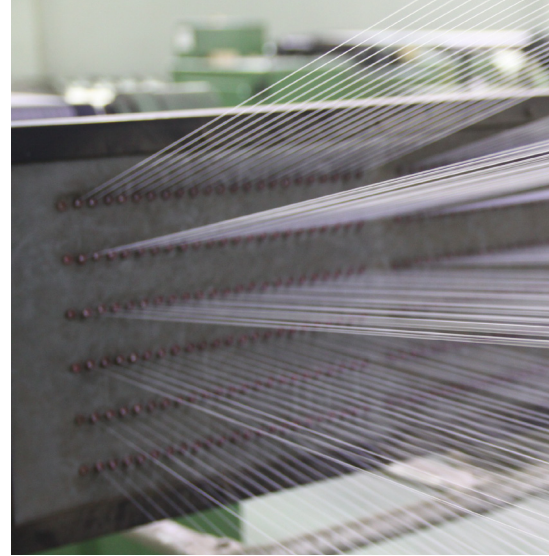

地拖系列 Mop Series

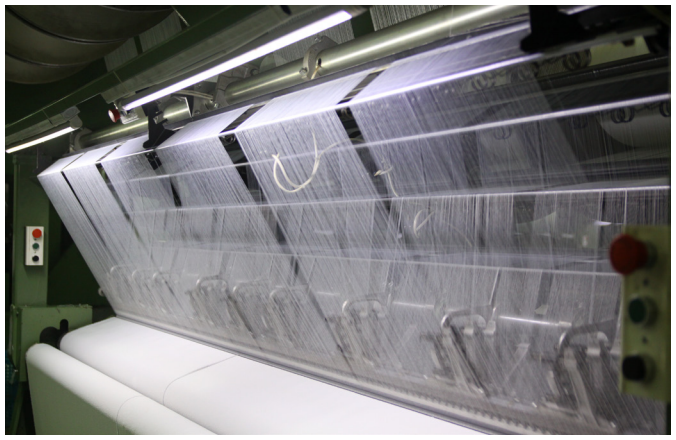

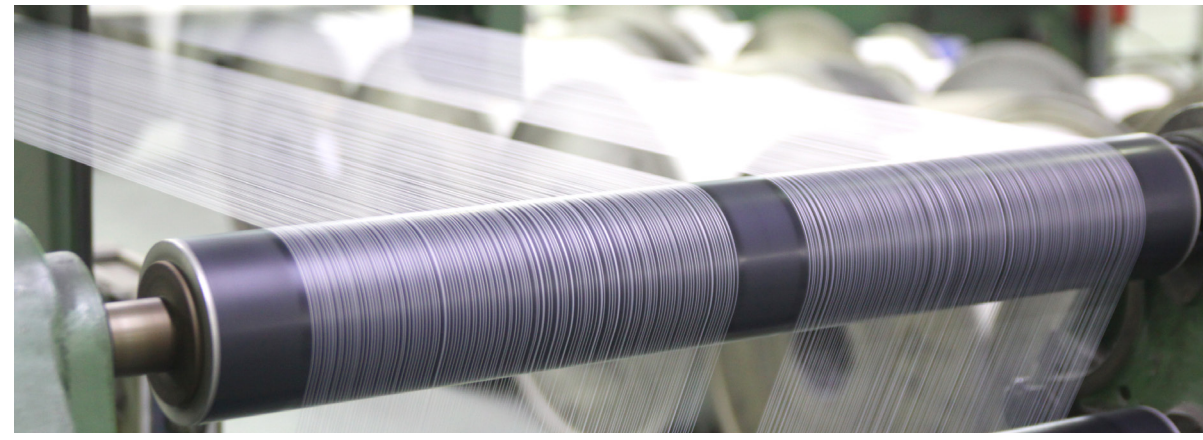

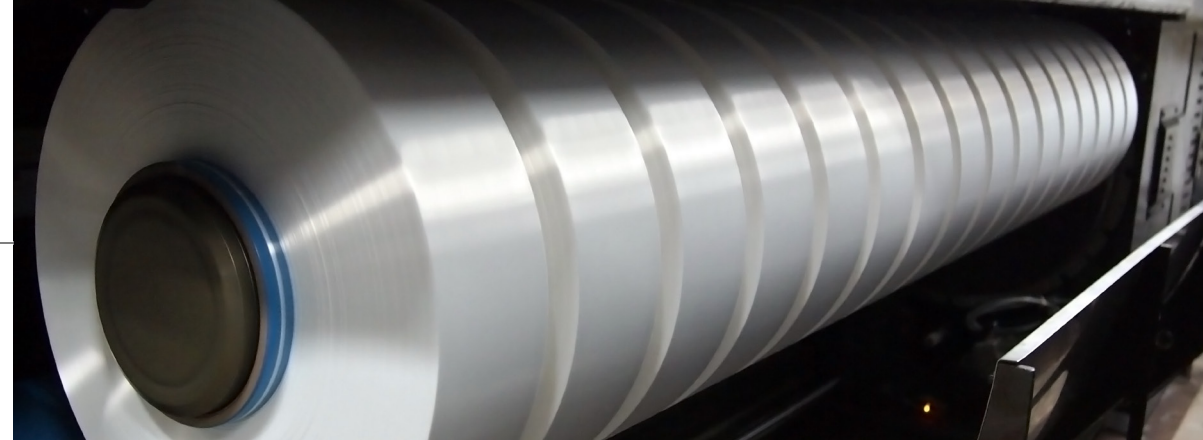

荣文人将目光投放在市场的最前沿，采用先进的设备和生产工艺，使其与高质量的产品定位相一致。高技术 with 顶尖设备，打造无与伦比的产品。

The Rongwen company with their eyes placed on the forefront of the market, using advanced equipment and production technology to match the consistent quality of product positioning. We use high-tech and leading equipment to create excellent products.

品质保证 QUALITY ASSURE

可靠保证 值得信赖
Reliable guarantee Worth trusting

我们质量管理中的关键就是从原材料进厂直至成品交付，过程可控，全员品管。我们设立了二十多道品质检验工序，拥有数百万元的检验设备、遍布每道工序的质量检验员，确保了我们的产品都能达到我们向客户承诺的技术指标。

The key of quality management is to conduct a comprehensive monitoring to each batch of product, from raw material to the finished products delivery. we have set more than twenty quality inspection process ,several millions dollars of expensive test equipment and quality inspectors. All of these ensure our products meet our commitments to our customers' specifications.

品质保证 QUALITY ASSURE

技术研发 R&D

布局研发策略，建立东华大学（原中国纺织工业大学）研究生实习基地及太仓新材料技术中心，与中国研究院院士、学者一起研究合成纤维领域的核心技术，开发健康、安全、环保的纺织产品。

With strategic research and development we set Donghua University(former china Textile University)Graduate Students Practice Base and New Material Technology Centre. We are getting cooperation with the academician and scholar of Chinese Research Lab to study the core technology in the field of synthetic fiber and to develop healthy, safe and environment-friendly products.
