

# STRATA

## **This Is What Outdoor Living Should Feel Like**

Seamless. Effortless. Built to endure. STRATA brings indoor-level quality to your outdoor kitchen without the maintenance.

## Luxury outdoor kitchens that never degrade, no matter the climate

Most outdoor kitchens look great... for a while. Then the sun fades them. Humidity warps them. Salt air corrodes them.

STRATA was built to solve that, permanently. Crafted with high-performance compact laminate and precision-engineered construction, our systems are designed to look exceptional year after year, without maintenance headaches.

## ENVIRONMENTALLY FRIENDLY

High Pressure Laminate and the Compact Laminate are sheets consisting of layers of papers impregnated with thermosetting resin, dried and bond together in a high pressure process. The kraft papers we used are mostly recycled papers, also called “regenerated papers”.

## Feature

-  Low Swelling
-  Fire-resistant
-  Mould proof
-  Scratch-proof
-  Stain resistant
-  Wear resistant
-  Free maintenance
-  Hygienic
-  Machining friendly
-  Various surface

# FEATURES & BENEFITS

Because outdoor living should feel effortless—not fragile.

Thoughtfully designed and engineered to match your unique lifestyle, STRATA® offers a collection of innovative, weather-resistant cabinets ideal for both residential and commercial outdoor spaces.

Durable and long-lasting, our cabinetry ensures your investment with years of outdoor living enjoyment.

# CABINETS
