## An Italian Heart

Precision design, meticulous engineering, constant research and testing, selection of the best materials. In short: a love for beautiful objects and care for the environment. This is what an Italian-made product means for Maxema.

## More than just a pen

Those who know us are well aware that our pens are much more than just plastic. We have been working in Italy for two generations alongside people we trust and with whom we love to design top quality writing implements. Each Maxema pen is created from the desire to take care of the environment and our customers, with safe, reliable and durable materials. Our mission? To support your projects and help you, wherever you may be in the world, to tell your story and leave a lasting message.

## Imprint your brand

Once assembled, the pen is ready to be “dressed” with a brand or message, choosing the most suitable combinations between finishes, colors and printing techniques. At the end of the process, the pen is finally ready to bring its precious message: your image.

## Maxema Antibacterial: design and safety

Take care of yourself even when you write: the plastic we use on our Antibacterial collection prevents bacteria from settling on pen surfaces and passing from one hand to the other.

### Why choose Maxema Antibacterial Pen?

**The plastic used is antibacterial**

Certified antimicrobial additive releases silver ions and prevents bacteria from settling on the surfaces of the pen.

**Bacteria: up to 99,99% less**

Laboratory tests have shown that up to 99,99% of the bacteria on the pen are destroyed.

**We Care about your health**

Some bacteria can cause disease and infections: make your life still safer, even when you write.

RECYCLED PLASTIC PENS

# Being Eco Friendly is a Way of Life.

For our recycled plastic pens we use materials of European origin that are 100% derived from postconsumer products.

When appropriately treated, they guarantee high quality plastics, certified and compliant with RoHS and REACH regulations. The production process consists of collecting WEEE material (waste electrical and electronic equipment), carefully separating the plastic from metal, glass and ceramic residues, and turning it into granulate material. This is how the Recycled line is made.

Recycled Collection

Change is a choice and it depends on each of us.  
To change means to choose responsible, sustainable consumption that prefers quality to quantity, better still if the raw materials come from recovery chains

**Choose Better.  
Make it last.**

Who said good things don't last? At Maxema, we do everything we can to make our pens live for as long as possible. A Maxema pen loves nature: the longer it lasts, the less it pollutes. And, since one life seemed too short for us, we have created a new line in recycled plastic, beautiful to look at and even more environmentally friendly

# Message from a Bottle.

Kind is made of certified R-PET. This material is obtained by gathering and recycling PET, the most commonly used polyester in the production of soft-drink bottles.

R-PET is made of recycled plastic and contributes to reducing the environmental footprint. Studies show that, apart from combating the accumulation of plastic waste, recycling 1kg of R-PET is equivalent to reducing CO2 emissions by 3kg

## Made from Recycled Apple waste Material

There are several key benefits to using recycled apple waste material in packaging. One of the most significant advantages is that it helps to reduce the demand for virgin materials, such as plastic or paper, which require significant resources to produce. By using apple waste instead, we can conserve natural resources and reduce our carbon footprint.

# Portfolio Folders

## Why should you invest in portfolio folders?

### Portfolio folders offer a myriad of benefits, including:

**Organization:** Say goodbye to clutter and hello to a well-structured system. Portfolio folders help you keep all your important documents in one place, making it easier to find what you need when you need it.

**Professionalism:** Impress your colleagues, clients, and professors with a sleek and organized portfolio folder. It shows that you are meticulous and detail-oriented, qualities that are highly valued in the professional world.

**Protection:** Keep your documents safe from spills, tears, and creases with a sturdy portfolio folder. Many folders come with protective features such as water-resistant materials and secure closures, ensuring that your papers remain in pristine condition.

### Tips for Organizing Your Documents

- 1.) Sort your papers into categories before placing them in the folder.
- 2.) Use dividers or tabs to separate different sections.
- 3.) Label each section clearly for easy identification.
- 4.) Regularly review and update your documents to keep them current

### In conclusion:

Portfolio folders are a practical and stylish solution for keeping your documents organized and secure. With a wide range of sizes, materials, and designs available, there's a folder to suit every need. By using portfolio folders effectively, you can streamline your workflow, protect your important papers, and add a touch of professionalism to your workspace.

### Recycled plastic bottles made into finely weaved yarn for lanyards

RPET stands for recycled polyethylene terephthalate, or recycled PET. PET is a strong, durable and recyclable material that is used for soda bottles, water bottles and food jars, while RPET can be made into such products as blankets, insulation, car parts, shoes and more. RPET is produced by collecting, sorting and recycling PET, then refining the material into flakes that can be turned into new products. Using RPET as an alternative to PVC is a huge step forward on the path toward a greener, safer and cleaner future.
