Unlock Your Success With Us.....

Welcome to Future Wings Academy !

Today, the role of a school is not only to pursue academic excellence but also to motivate and empower its students to be lifelong learners, critical thinkers, and productive members of an ever-changing global society. More than a decade back, Future Wings Academy took a pledge to chase education. The school under a well-established management has made its own remarkable position all over the Country. The team of Future Wings Academy tries to provide students with such an atmosphere in which they can easily as well as freely channelize their energies, skills and abilities in an efficient manner. This is only possible in a motivated and energetic environment. Potential of students should be nurtured so that he/she can reach to such a height which is beyond their imaginations.

The school is trying hard to make the best possible efforts for the development of the students not only on a curricular basis but even on the extra-curricular ones.

How Did It Originated?

School is a key element of one student's life. A school is actually a home away from home for any student. It is not just a building but a base for the future of many. School is not just a temple of education but a house of memories too.

There's no doubt, that school plays a significant role in shaping up a student's personality and future. The presence of experienced teachers plays a critical role in shaping students' academic lives. A perfect school campus not only consists of experienced staff and studious students but also good infrastructure. A child spends his/her maximum time in school as a student, then school infrastructure becomes a major factor behind how a child sees the world as he/she grows up.

Chairman Message

"Education is a shared commitment between dedicated teachers, motivated students and enthusiastic parents with high expectations"

Our Vision

At Future Wings Academy, "Excellence is a culture". Our vision underpins our teaching and learning. Through the promotion of positive learning attitudes, we strive to develop ambition, confidence, care, respect and tolerance in our pupils in order to prepare and enable them to become lifelong learners and take an active role in their communities, shaping the future and becoming fully rounded citizens.

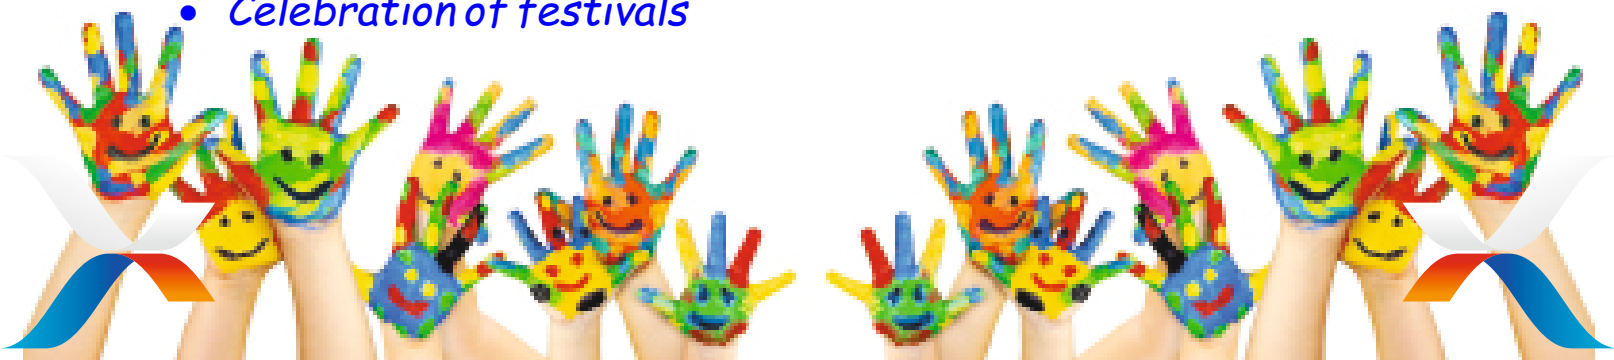

Our Mission

Our pupils are the feature of our school of which we are most proud. Our aim is to create a happy, caring atmosphere in which pupils and adults show consideration and respect for each other at all times. We aim to provide the highest standards of education within an inclusive environment. We have therefore developed a broad and balanced theme-based curriculum, which includes assessment and meets all statutory requirements, ensuring it challenges and meets the needs and interests of all our children. We endeavor to ensure that all of our pupils fulfill their potential, experience success both academically and socially, whilst enjoying their time in our care. We also have a variety of extra-curricular activities designed to enrich each child's experience, and actively welcome parents into school life.
