Set sail with the first Autism Friendly cruise line

Royal Caribbean® has always been the best choice for family friendly cruising. Now we've got even more to offer for children and adults on the autism spectrum.

We are the first Autism Friendly cruise line, offering a unique collection of products and services designated to provide a welcoming and autism friendly environment onboard our ships.

Families sailing on our Autism Friendly ships can be confident that they will find autism friendly products, amenities and even special television programming onboard. Our efforts to ensure inclusion and participation by the autism and developmental disability community create an inviting and supportive experience the entire family will appreciate.
