

## GENERAL CATALOG

### "Wooden Wonders by LiDANLi "

Hello!

We take pride in introducing LiDANLi products, inspired by both modern and classic design, and crafted with the latest technology, following several years of experience in the production and design of wooden products using natural and untreated wood. LiDAN-Li's production and quality processes are certified under the ISO 9001 standard, ensuring LiDANLi's

LiDANLi products bring the essence of nature into homes, preserving the beautiful lines and knots of wood. To adapt and preserve the environment, we make 90 percent of our decorative products by optimally using dry trees that turn into charcoal, change this negative way make them so that they decorate homes.

LiDANLi employs advanced 3D digital designs to transform these natural woods into visually appealing design pieces, characterized by significant thickness, fostering a deeper connection with nature, setting LiDANLi apart. In line with our dedication to environmental protection, we utilize plastic-free packaging in accordance with global standards.

Communication with the customer is at the heart of

LiDANLi's endeavors. In the our family, your ideas and perspectives serve as the driving force for our development and progress in production, ensuring that our wooden creations evolve into tangible reality, harmonizing with your creative mental concepts.
