

1. Overview

Carl Higgs Photography is a fine-art nature and wildlife photographer based in upstate New York. Carl's work blends documentary-style field photography with painterly and sketch-inspired post-processing to create emotionally rich, gallery-worthy prints. His collections feature wild birds, landscapes, butterflies, animals, and floral studies - all captured in natural environments and presented as premium fine-art and framed prints.

2. Artist Bio - Carl Higgs

Carl Higgs is a wildlife and nature photographer known for his ability to capture quiet, intimate moments in the natural world. Working primarily in upstate New York, Carl photographs wild animals in their natural habitats, creating images that balance realism with artistic expression. His work spans traditional wildlife portraits, painterly interpretations, and stylized sketch effects, offering collectors a diverse range of fine-art pieces suitable for home, office, and gallery display. In addition to prints, Carl has a separate online store, Birdlover's Botique, featuring gift and collectable items featuring his bird photography.
