## Proactive Actionable Intelligence

**Moringa Cyber** - Your Impenetrable Shield in the Digital Frontier

**Moringa Cyber** ([www.moringacare.ng](http://www.moringacare.ng)) stands as a vanguard in African cybersecurity, fiercely committed to safeguarding your digital haven. Our team boasts not only **unwavering expertise** but a **proven track record** of conquering cyber threats, ensuring your business thrives in the digital jungle.

### Meet Our Cyber Sentinels:

In-house, we have some of the best egg-heads available in Africa. Moringa Cyber boasts a powerhouse team of cybersecurity experts, each bringing their unique skills and experience to the table. Together, they form an impenetrable force, safeguarding clients across the globe.

**Oluwaseun Bakare, Chief Strategy Officer:** Oluwaseun leverages his extensive expertise, honed through international projects, a business background and a Master's degree in Cybersecurity, to craft winning strategies that guarantee client success. He spearheads operations with a keen eye, ensuring Moringa Cyber remains at the forefront of the ever-evolving cybersecurity landscape.

**Kehinde Adesunloye, Cybersecurity Specialist:** Armed with a B.Sc. in Mathematics, cybersecurity internship experience, and a Cisco certification in Cyber Threat Management, Kehinde manages Moringa Cyber's research, training, and publication services. His meticulous approach and clear communication ensure clients are informed and empowered throughout every engagement.

**Alexis Shaw, Cyber Intelligence:** Based in Brisbane, Australia, Alexis is a global cybersecurity guru who brings onboard over her 8 years of battle-tested experience in everything cyber. Her potent combination of a Bachelor's in Information Technology and a Master's in Cybersecurity allows her to deliver insightful solutions tailored to unique client challenges, regardless of location.

With the support of our affiliates and networks across the globe, we are well resourced to cope with the challenges of cross-border cybercrimes and kept abreast with the details of emerging threats in the cyber landscape and measures to mitigate these threats. It is the strength of these network and know-how that we deploy to every assignment that we

undertake so that you can deliver on your business goals knowing that someone has got your back.

### Our Unbeatable Defense:

- **Compliance:** Struggling with CBN Risk-Based Cybersecurity Framework or Nigeria Data Protection Act 2023 compliance? We help you meet your obligations, reducing your threat landscape and defending-in-depth your data asset and infrastructure.
- **Investigations:** Suspect a data breach or system compromise? We conduct digital forensic investigations and provide sound advice on remediation.
- **Tailored Solutions:** We understand the uniqueness of your digital landscape. That's why we ditch the cookie-cutter approach, crafting bespoke solutions encompassing digital forensics, vulnerability assessments, penetration testing, incident response, and security awareness training – a holistic shield against any cyber onslaught.
- **24/7 Vigilance:** Our unwavering watchdogs never sleep. Our advanced monitoring systems scan your network tirelessly, detecting threats in real-time and taking immediate action to mitigate risks before they can wreak havoc.
- **Unmatched Expertise:** Our team comprises certified professionals who possess an intimate understanding of the ever-evolving cyber threat landscape. They wield cutting-edge solutions and proven strategies, ensuring your defence remains impenetrable.
- **Global Reach:** We have alliances across the globe and put this to your aid in accessing information on developing threats as well as a global resource to keep you safe. When it comes to technology, we guarantee it, you will find no better value than with the alliances we have in place in cutting-edge technology (e.g perimeter monitoring, intrusion detection and protection, data protection at rest and in-transit etc).
- **Rapid Incident Response and Recovery:** When disaster strikes, we're by your side. Our seasoned **Incident Response and Recovery** team can help you to contain the breach, minimizing damage, and restoring your operations swiftly and securely. We don't just fight fires; we ensure you rise from the ashes stronger.

### Thrive in a Disrupted World:

- **Protect and grow your business** knowing you are backed by a team of dedicated cybersecurity experts with networks across the world.
- **We CARE.** It's in our name, and it's in our actions. We go beyond technical expertise, building trust and partnerships with our clients.
- **Don't be a victim of Murphy's Law.** Cyber threats are real, and we help you prepare. Be ready to get up and running despite an attack with **Africa's most capable cybersecurity professionals** by your side.

### Remember:

- Having constant network monitoring is essential. **Cybercrime is not an "if" but a**

"when." Secure your systems now, before it's too late.

- **Join the fight!** Be vaccinated against cybercrime and help create a secure digital ecosystem in Africa.
- **Report cybercrime incidents** to join the vanguard of keeping Africa safe.

### Our Mission:

#### Be Immunized Against Cybercrime

At Moringa Cyber, we are your **24/7 watchdogs**, providing proactive intelligence and swift action against cyber threats. Our team of Africa's top cybersecurity experts, combined with global networks, ensures we stay ahead of emerging threats and deliver **unmatched protection**.

#### Protecting the African Cyberspace

We are dedicated to safeguarding people, businesses, and the environment from cyber threats. Partner with us to build a safer digital future for Africa.

#### *and, above all, we are socially responsible.....*

- We are dedicating considerable resources towards creating awareness of cybersecurity issues in schools as well as building the next generation of professionals to keep us safe from cyber threat actors through our school cyber reach program – cyber clubs in schools.
- Our cybercrime database (<https://moringacare.ng/#cybercrimereport>) is for use by the public to report cybercrimes. This repository will help Cyber Researchers in identifying current and emerging threats in the landscape, the prevalent types, and cyber actors. In addition, we will use this to provide early warnings to all and recommend actions to be taken to keep everyone safe.
- Our Publications and Monthly Reports (available at <https://moringacare.ng/projects>) provide snapshots of cyber activities across Africa and aims at keeping you informed of threats that may be developing in the landscape as well as share best practices on what to do.
