ORGANIC TEA LAB

Order your Organic tea collection from our Health Forest Lab, we carefully select our tea from around the world.

We offer organic teas and remedies, crafted with care to promote health and happiness through sustainable, high-quality solutions for your well-being.

Organic Tea Lab

We are passionate about sourcing the finest organic teas from renowned plantations across India, China, South Africa, Japan, and beyond, certified by Qualisud.

Our commitment to quality and sustainability ensures you enjoy pure, flavorful tea, free from harmful pesticides and unethical practices, transporting you to distant lands with every sip.

OUR MISSION

Reviving ancient wisdom that has stood the test of 5,000 years, we are transforming it into a language that resonates with today's world. The Science of Life has always been part of our journey. Now, we are rediscovering our authentic selves and embracing the profound truth of who we truly are.

HealthForestShop is dedicated to making a difference by offering a wide range of alternative health solutions online, connecting with individuals seeking natural remedies. We meticulously select specialized botanical herbs and remedies to empower our clients on their health journeys.

Health Forest was founded in 2014 in the UK as AYU-OK, later evolving into Health Forest World. Our mission is to empower individuals seeking to reconnect with their true selves through the Science of Life.

Drawing on ancient wisdom that spans thousands of years, we translate this profound knowledge into contemporary language, revealing the secrets of earth medicine.

In today's world, health challenges have reached alarming levels. Digestive issues, sleep disturbances, hormonal imbalances, mental health crises, and the rise of diseases are all manifestations of our disconnect from our bodies and their innate blueprints. Health Forest is dedicated to revitalizing the Science of Life, providing you with the tools to restore your health and reclaim your well-being.

Join us on this journey to rediscover the path to holistic health through carefully selected Ayurvedic botanical herbs and remedies designed for our times.

Our Environmentally Packaging

Socially, economically and environmentally responsible
Beautiful packaging, responsibly sourced for your
products.

What's in a cardboard tube?

Our cartons are classified as FSC mixed sources, with 70% coming from recycled materials and 30% from FSC-managed wood or reclaimed wood.

What are FSC managed woods?

Using FSC-managed wood means zero deforestation. This ensures that our products protect animal habitats, maintain biodiversity, and protect old-growth trees. It also guarantees the rights of Indigenous peoples, along with fair wages and safety for workers.

What other benefits are there to obtaining products this way?

The carbon locked up in trees is stored in the atmosphere, removing carbon from the carbon cycle. In managed forests, more trees are planted to replace those cut down, and therefore, more CO₂ is removed from the atmosphere.
