Workshop and Performance

It can be difficult to gauge if a company can deliver what they say they can. It's often more productive to **show** you, rather than tell you. I am confident that after a workshop and assembly experience, you will see the massive benefits of the Djembe Drumming projects we offer.

Workshop & Assembly Package

45-minute hands-on drumming workshop with a group of your students followed by a:

30-minute full school assembly, featuring a performance including the workshop participants.

Drums provided.

Special Offer for Schools Considering a Full Project

£250 for the package (paid upfront).

If your school books a full 30-week project, you can deduct £150 from the total project fee.

This means the workshop acts as a trial session, and if you proceed, you'll effectively only pay £100 for the workshop and performance package.

Next Steps

Let me know if you'd like to book a workshop, and we can arrange a suitable date. If you'd like more details about the full 30-week project, I'd be happy to discuss how it could work for your students.

"Don't tell me, **show me!**"

"Hi, I'm Adam Bailey, often referred to as "The Drumming Man". With 20 years of teaching experience, including 12 years at the Local Music Hub, my passion for drumming and teaching is stronger than ever! After creating and developing the djembe program at the hub from the ground up, I've now turned my focus to working directly with schools through my business, All About Drumming."

"By combining my deep knowledge of djembe drumming with proven, high-quality teaching practices, I ensure that schools get the best possible learning outcomes and project delivery – all led by me. No more excessive admin; your experience will be straightforward, streamlined, and focused on what really matters – bringing the joy of drumming to students."
