

## The Black Slope™ COMPASS 1046

**Black Slope**

1046 is the average number of days, senior executives hold their job before changing roles – How to make it count? This is a simple starting point to clear your mind in times where opportunity meets excitement (aka stress) – and focus might be challenged.

**All you need:** a pen, paper and hardly more than 10 minutes of your time.

Take at least 2 minutes to answer each question. You can take more time – but don't move to the next questions before the time is up. If you need more paper, go for it! Now, start a stopwatch. When you think you are done, continue to review and write for at least 2 more minutes.

➤ How will you measure success in 1046 days from now?	
➤ Which leadership patterns/qualities have served you best in the past that you should leverage now?	
➤ Who are your allies?	
➤ What gives you energy?	
➤ What will the organisation most need in the first 6 months – what in 2 years from now?	
➤ What are you going to do today to move the needle?	

**What now?**
