

Education

Education and integrity have been a key driving factor to the founders of LACo. bringing together over 30 years' experience, utilising our extensive knowledge and expertise in the education sector to deliver outstanding projects, supporting our clients from inception to completion, and to deliver an enhanced teaching environment. We acknowledge cost and value for money is pivotal in this sector.

We recognise that the type of client and funding arrangements have changed dramatically over time. Our experience and skills allows us to adapt to changes, in order to be effective in the funding process. Our team is equipped to advise of the most appropriate means to develop your Academy, MAT or College.

Our client base encompasses nursery and pre-schools through to the Higher education sector. We cover a diverse range of projects, from small survey commissions to large new build schemes across the country.

More recently we have become involved in supporting schools to make the transition to Academy status, attracting both new Academy and MAT clients. We have become the preferred partner to Academies and MATs, and take pride in being their supplier of choice year on year, assisting them with their bids to the ESFA for CIF (ACMF) funding. We have had extensive success in obtaining funding for projects ranging from vital maintenance works to whole block replacement and expansion schemes.

“An example of this is our continued relationship with Emerson Park Academy, a relationship we have maintained over the past 7 years, securing over £11 million in funding including a £2.3 million block replacement”.

We have extensive experience of working within and alongside historically important and listed buildings to produce solutions that are both sympathetic to the historical heritage, yet relevant to the modern needs and requirements of the users.

Whether your need is a small survey, or you require our expertise with a large multi-million pound project, we have a team ready to suit your requirements. Our aim is to build long term relationships with educational establishments, where satisfied clients return to us regularly due to our diligence and quality of service.

Surveying

LACo. specialist education building surveyors conduct thorough inspections, assessments, and planning for every aspect of your estate, ensuring it upholds the highest standards of compliance and quality.

Project Services

LACo. deliver the planning, preparation and completion of projects, guiding all parties to overcome obstacles and complete all work in a timely, professional, and cost-effective manner.

Funding

LACo. assists your school, academy, or MAT in securing strategic funding to enhance your estate, leveraging our team's extensive experience in delivering successful bids.
