AN ENTIRELY NEW EDITION OF THE LINCOLN STAMP CATALOGUE

A PRICED AND ILLUSTRATED CATALOGUE OF FOREIGN, COLONIAL and BRITISH POSTAGE STAMPS. CONTAINING OVER 4,100 ILLUSTRATIONS.

This edition is profusely illustrated with over Four Thousand One Hundred pictures of Stamps, showing every type and variety of design.

Prices are given, both used and unused, of nearly every Stamp, including the very rare ones, which information will be found invaluable to the Collector.

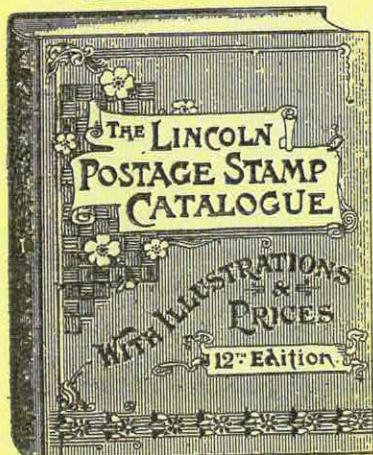

The dates of issue, varieties of perforations, and names of colour of every Stamp, are also enumerated.

Diagrams of Watermarks are shown, and original enlarged Drawings or Sketches are given showing minute varieties of Engraving which could not otherwise be satisfactorily explained.

The Historical and Geographical notes and other information important to Philatelists, that was so much appreciated in former editions, have been largely augmented in this edition, and many notes of interest are given that have never appeared before in any Catalogue.

The arrangement of the Countries is in strictly alphabetical order to facilitate reference.

This Edition is printed and bound in two styles:-

No. 1. Size 7 x 8 inches, 3/-

No. 1.—Same size as the previous editions the Lincoln Stamp Catalogue x 8 inches, with prices and pictures, 200 pages.

Bound in Cloth, 3/-; Post Free 3/4 to any part of the World.

.....

No. 2.—Printed on superior fine paper and bound in convenient size for carrying in the pocket; the pages are half the size of those in No. 1, therefore there are 400 pages, as there is exactly the same amount of printing as in the 200 pages of the No. 1 Stamp Catalogue.

Bound in Cloth, Limp Covers, 3/6; Post Free 3/9 to any part of the World.

No. 2. Size 3 1/2 x 8 inches, 3/6.

Lincoln Transparent Perforation Measure.

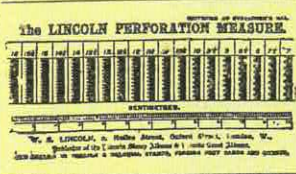

Convenient Size for carrying in Pocket Book.
Price 3d.; Post Free, 4d.

THE Lincoln Transparent Perforation Measure is made on quite a new plan, and every Collector should possess one.

Perforations are counted by the number of teeth that occur in the space of two centimetres, and not in the actual number of teeth at side or top of Stamp.

The value of the Stamps of Prince Edward Island, British Guiana, Great Britain, Sierra Leone, Austria, Baden, Finland, Legos, Russia, and many other countries, vary according to the number of perforations, distinguished at a glance by help of the Lincoln Perforation Measure.

Collectors using this Measure avoid the necessity of removing Stamps from their Album when measuring the perforations, as it is printed on a transparent substance, which can be placed over the Stamp however firmly fixed in Album.

The Lincoln Perforation Measure has a series of 19 diagrams or gauges, giving the various sizes of perforations, each diagram being in the space of two centimetres. Herewith is a representation of it on a very reduced scale.

LINCOLN ADHESIVE STAMP HINGES.

The Lincoln Adhesive Stamp Hinges are intended to be used for fixing Stamps into albums, and will be found a great boon to collectors of stamps. They are small tags of very thin strong paper, a trifle smaller than ordinary stamps, and are gummed on one side; when folded they form a hinge, by which a stamp can be fixed in the album, allowing the stamp to be turned over to examine the watermark; a bad specimen can be easily removed, or any portion of

the collection taken out and re-arranged with very little trouble. The mode of fixing the Hinge on the back of Postage Stamp is shown by the accompanying engraving.

Collectors often put aside and lose a stamp because the gum or paste is not to be found when they want to affix a stamp in the album. By the use of the Lincoln Stamp Hinges this annoyance can be avoided as the Hinges can be kept with the album and always ready at hand.

These Hinges are also suitable for fixing in Postcards, as referred to in preface of Lincoln Postcard Album, and will be found very useful for many other purposes.

GEORGE R. THOMPSON, ANALYST, &c.

Mr. William Lincoln,

CERTIFICATE OF ANALYSIS.

The Laboratory,
Newport, Mon.

Dear Sir,—I have much pleasure in reporting most favourably upon your "Lincoln Stamp Hinges." Before using them for a large collection of stamps I made most careful experiments to ascertain whether they contained anything (i) of a harmful nature to the tongue if used for moistening them, (ii) of such a nature as to discharge or alter the colour of any specimen attached to them. The results have proved that neither the paper nor adhesive matter contain anything likely to cause harm to the mouth and tongue, and no action results even upon such sensitive colours as are employed notably in stamps of Russia, Cashmere, &c. Even the green colour in the present issue of Great Britain is unchanged, hence I can thoroughly commend them to all collectors who need have no fear in their use, and as regards their adhesion there is no liability of chipping off or cracking.

I am, Dear Sir, yours faithfully,

GEO. R. THOMPSON.
