The Marina del Sol Flotilla

A nautical lifestyle is the soul of our resort, and we are glad to offer a variety of watercrafts to enable you to explore the Pearl Bay and neighboring islands.

MOJITO (Motor Catamaran)

Our main watercraft is a twin-hulled boat with 115 hp outboard engine designed for cruising in comfort. It can take up to eight guests and two crew, and is best for snorkeling and beach trips in the vicinity of our bay.

MICHAELA (Speedboat)

This speedboat is ideal for longer trips and fishing expeditions with its center-console 115 hp engine that cuts banca travel times by more than half. It can take up to six guests for a full day trip to Coron or Black Island.

MARGARITA (Flat Speedboat)

Our water taxi is a flat and steady boat for short trips within the bay or a visit to Pass Island just across.

BANCA

A traditional boat with bamboo outriggers, the banca is both a mode of transport and a cultural experience. Whether you are traveling solo or with a large group, we can recommend the suitable banca for you.

HOBIE SAILBOATS

In addition to motorized boats, we also offer several Hobiecat sailboats. The Bravo has a furling (adjustable) mainsail and is easy to handle for newbies. It takes up to two adults or one adult plus two kids. The Getaway is a family boat and can take up to four adults. The Hobie Adventure Island is a hybrid paddle/pedal kayak and trimaran sailboat. Not only is it one of the most unique boats but also one of the most fun and safe to use.

Some prior sailing experience is required to take these boats out independently, but if you have not sailed before, our staff can join you as skipper so you can enjoy the sailing experience.

KAYAKS & PADDLE BOARDS

Another eco-friendly and serene way to experience the bay is with our Hobie kayaks and paddle boards. Rent them by the hour for independent explorations or sign up for a guided adventure trip to the mangroves.

Snorkeling and Beach Trip

Our curated boat trips are the perfect introduction to Busuanga, and the best way to experience the attractions that this group of 1,200 islands is known for — reefs, wrecks, and beaches.

SNORKELING TOUR

Coral Garden is a protected reef with schools of tropical fish, turtles, and rays swimming along the coral shelf. It is considered one of the best snorkeling and reef dives in the country.

Lusong Gunboat is a sunken WWII patrol ship that now hosts thousands of aquarium fish among the soft corals gently swaying with the current. The wreck is shallow enough for snorkelers and free divers to enjoy.

Pass Island is the beautiful white sand isle visible from Marina del Sol. This is a laid-back destination perfect for lounging the rest of the day away. A short trail around the island makes for a great nature stroll.

ISLAND BEACH TRIPS

If what you are looking for is just a relaxing day snorkeling or lounging on the beach, ask our Experience Guides to recommend a tour for your group. Island picnic lunches and cocktails can also be arranged.

Busuanga Island Hopping

If an adventure on a deserted beach or discovering several islands is your type of vacation, check out any of these off beaten path destinations on the west side of Busuanga.

Isla Malajon/ Malajem is a protected island belonging to and considered sacred by the native Tagbanua tribe. It is more popularly known as Black Island because of the dark and ominous appearance of its tall limestone cliffs.

On this island, you can lounge on its white sand beach, check out the shallow wreck and reefs close to shore, and swim in its cave pools.

Debotunay Island is less frequented by tourists and has a pristine white sand beach with cool turquoise water and a very relaxed vibe. Stroll down the half-mile deserted beach for a mental reset.

Maltatayoc, North Cay, and South Cay, form a three-islet chain with spectacular natural white sand beaches rivaling Boracay. They are what you might envision when you dream of a deserted island paradise.

Coron Island Tour

Iconic and definitely a must-visit, lush forests, age-old limestone cliffs, and crystal clear lagoons await in this ancestral land.

Kayangangan Lake, accessed by hiking up a seaside cliff and descending on the other side to an immaculate fresh water lake. The lake is framed by an untouched forest growing amongst karats. A similar but less of a climb/hike is Barracuda Lake, named after divers discovered a large resident barracuda that may have entered through underwater ridges in the limestone walls.

Depending on the tide (and your swimming skills), Twin Lagoon is accessed either by wading under a small cave/hole or climbing over the limestone rock that separates it from the sea. The view that greets you on the other side is one that you won't soon forget.

There are also several small white sand beaches tucked into nooks of the island's limestone coast, and any of these are perfect for swimming and picnic lunch. Afterwards, you can snorkel at Site Pecados or stop by CYC beach before heading back to Marina del Sol.

To maximize your time in the destinations, we recommend taking the speedboat Michaela.
