

## **Cambrian Cottages' sustainable procurement policy**

### **Objectives**

- To reduce Cambrian Cottages' environmental impact by favouring sustainable products and services
- Support socially responsible practices by sourcing from suppliers who respect workers' rights and social standards
- Contribute to local economic development by favouring local suppliers.

### **Scope of application**

This policy applies to all Cambrian Cottages' purchases, including food products, operating supplies, equipment and services.

### **Sustainable purchasing criteria**

Products and services will be selected according to the following criteria:

#### **Environment**

- Eco-certified products
- Products made from sustainable materials
- Products with a low environmental impact (carbon footprint, water consumption, avoid impact on biodiversity etc.)
- Local and/or seasonal products
- Second-hand or reconditioned products
- Select bulk products
- Reduce plastic packaging and favour cardboard and recyclable packaging

#### **Social**

- Respect for workers' rights and social standards
- Suppliers committed to ethical practices
- Fair trade products

#### **Local**

- Priority given to local suppliers
- Locally manufactured products

### **Examples of sustainable purchasing**

- Food products: organic, local and/or seasonal products, quality labels, etc.
- Operating supplies: eco-certified, refillable, compostable products
- Equipment: energy-efficient, made from sustainable materials

- Services: local service providers committed to a sustainable approach

### Implementation

The sustainable procurement policy will be implemented through the following actions:

- Staff training: raising staff awareness of sustainable development issues and sustainable purchasing criteria
- Drawing up purchasing procedures: integrating sustainable purchasing criteria into purchasing procedures
- Monitoring and reporting: performance monitoring and regular reporting

### Monitoring and reporting

The sustainable purchasing policy will be monitored and reported using the following indicators:

- Share of sustainable purchases
- Reduction in the hotel's carbon footprint
- Number of local suppliers

Signed: Co-owner
