The World's First MISTING KIT AC DC 12V

SMOOTH MISTING - UTRA FINE MIST

Misting Kit gives you one of the most economical, efficient and highly effective solution for reducing temperature from Hot to Cold drastically. It has been said by experts that circulation fans used with a mist are truly the best way to cool down.

Misting Kit has been designed to perform flawlessly and will instantly create cool and comfortable environment. This is a great low budget solution to the hot summer heat.

Quick & Super Easy to Convert any Pedestal Fan or Wall Mount fan into a Cool Mist Fan.

The Founder of Misting Kit

- 01 TOP CLASS QUALITY
- 02 QUICK & EASY TO INSTALL
- 03 Current AC 220v / 12V DC
- 04 SOLAR + BATTERY OPERATION

- > Mistig Kit built-in 12V DC Motor
- > 12V AC DC Adapter
- > Brushless DC Water Pump
- > Plastic Water Tank (Capacity 12 Litre)
- > Pedestal Fan Floor Metal Stand
- > Wall Bracket Fan Metal Clip
- > Wire and +- Connector for Solar / Battery.

- > DC MOTOR
- > Voltage: DC12V
- > Current: 2 AMP

- > Current AC 220V / DC 12V Adapter
- > Input: 100-240v AC~50/60Hz
- > Output: 12V 2 AMP DC

- > Input: DC12V
- > Current: 300 mA
- > Hmax: 300 cm
- > Qmax: 240 L/h

**Running without water even one time can cause the pump to the airlock.
Highly advised not to run Misting Kit without water.**

**Convert any Pedestal Fan
or Wall Mount Fan into a Cool Mist Fan.**

Any ordinary pedestal fan regardless of its size simply moves hot air from one location to another. By adding Mist Fan Kit, same fan will now circulate significantly cooler air throughout the area.

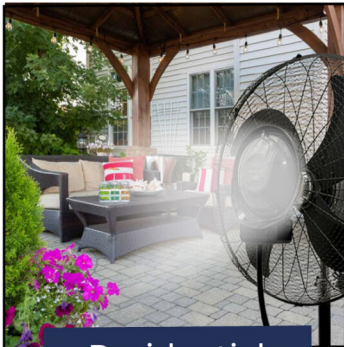

misting kit

Recommended for Outdoor Use

Beat the Summer Heat & Stay Cool.

Instantly create cool zone with misting kit which is designed to produce fine smooth mist by using a state of the art technology. Engineered with High Quality material to ensure longevity.
