

HKSECURE

4G Dual Lens Solar Powered Mini Pan-Tilt Camera with 10X Zoom

Description:

Smart Surveillance, Even in Remote Locations

The HK Secure 4G Dual Lens Mini PTZ Camera is a solar-powered, all-weather security solution designed for 24/7 outdoor protection—without depending on power lines. Equipped with a built-in battery and solar panel, this camera ensures uninterrupted performance in areas with limited electricity access.

It features dual lenses for wide-area coverage and pan-tilt rotation for broader surveillance. With intelligent detection and all-time color vision, this camera combines proactive alerts with clear visuals. Whether it's a farm, warehouse, construction site, or remote property—this camera keeps you connected from anywhere with 4G support, cloud recording, and mobile app monitoring.
