

HKSECURE **4MP IP Bullet Camera** **– Project Series**

HKLS4IPB-P

Description:

Advanced Surveillance. Built for Heavy-Duty Protection.

The HKLS4IPB-P from HK Secure's Project Series is a high-performance 4MP IP Bullet Camera designed to meet the demanding needs of commercial, industrial, and infrastructure-grade surveillance projects. Engineered with 6KV lightning protection, two-way audio, and a host of smart features, it ensures 24/7 security, even in harsh environments. Equipped with H.265+ video encoding, night defense with siren, and dual IR mode up to 25 meters, this camera delivers crystal-clear footage and intelligent alerts in both day and night conditions. With 512GB memory card support, sound & light alarm, and a fully metal IP66-rated housing, this camera stands out as a reliable, heavy-duty security solution for professional-grade installations.
