

HKSECURE 5MP IP Dome Camera

HKLS5IPADC-S

Description:

Smart Surveillance for Smarter Spaces

The HKLS5IPADC-S Dome Camera from HK Secure is a next-gen 5MP IP surveillance camera designed to deliver superior indoor and outdoor security. Housed in a sturdy metal casing and equipped with dual IR motion detection, this dome camera offers real-time preview, high-efficiency H.265 video encoding, and inbuilt audio—ensuring both video and audio coverage with crisp clarity.

Built for ease of use, it features plug-and-play functionality and PoE (Power over Ethernet) support, making installation simple, clean, and cost-effective. Ideal for homes, offices, shops, schools, and commercial spaces

Specifications:

- 5 Megapixel IP Dome Camera
- H.265 Compression Technology
- Dual IR Motion Detection
- Plug & Play Installation
- Power over Ethernet (PoE)
- Built-in Microphone
- Live Video Preview
- Durable Metal Housing
