SPRINGFIEDS PRIMARY SCHOOL

JUNE, 2026

Sports Day was held on 19th June at Lotus Club. The programme began promptly at 8:00 A.M. with the March Past by the learners, followed by the singing of the National Anthem. Mrs. Khetrupal warmly welcomed all the parents, teachers, and guests and thanked them for their presence and support.

The sporting activities started with various races for both Lower Primary and Upper Primary learners. The children participated enthusiastically and displayed excellent sportsmanship throughout the event. Relay races were also conducted, encouraging teamwork and cooperation among the learners.

A number of fun-filled activities were organized to make the day enjoyable for everyone. Parents and teachers actively participated in the events. There was an exciting race among the teachers, which was greatly enjoyed by the learners and parents. Mothers participated in race among themselves Fathers also took part in a special race, while mothers competed against the female teachers in a thrilling tug of war. The cheering and encouragement from the audience created a lively and joyful atmosphere.

The final event of the day was a hula hoop activity involving teachers and mothers. It brought lots of laughter and excitement and was a perfect way to conclude the programme.

The Sports Day was a great success. It provided learners with an opportunity to develop physical fitness, teamwork, discipline, and confidence. The event ended at 11:55 A.M. as scheduled. We expressed our sincere gratitude to all the teachers, parents, and learners for their participation and support before dispersing. Everyone left with happy memories of a fun-filled and successful Sports Day.

MID TERM TESTS

The Mid-Term Tests at Springfields Primary School commenced on Wednesday, 24th June 2026, and concluded on Friday, 26th June 2026. During this period, learners from different grades sat for examinations in various subjects to assess their understanding of the work covered during the term. The tests were conducted in a calm and well-organized environment, allowing pupils to concentrate and perform to the best of their abilities.

The school administration and teachers ensured that the examinations were conducted fairly and smoothly.

Learners demonstrated discipline by arriving on time, following examination rules, and completing their papers within the allocated time.

Tests marked an important milestone in the academic calendar, providing both teachers and learners with an opportunity to evaluate academic progress and identify areas for improvement.

Handwriting is an important skill for learners at the primary school level. It helps children express their thoughts clearly and complete schoolwork neatly. Good handwriting also makes it easier for teachers and classmates to read their work.

Learning to write by hand improves concentration, memory, and fine motor skills. It also builds confidence as learners take pride in presenting neat and organised work. Regular handwriting practice helps children develop patience and discipline.

Parents and teachers should encourage learners to practice handwriting every day. With consistent practice, learners can improve their writing skills and perform better in school.

In conclusion, good handwriting is an essential part of learning. It supports academic success, boosts confidence, and prepares learners for future educational achievements.

Learners at Springfields Primary School participated in a fun and interactive Number Cards Activity. The children identified, matched, and arranged number cards in the correct order. Through games and group activities, learners practiced number recognition, counting, and sequencing skills.

The activity helped to build confidence in mathematics while making learning enjoyable. Learners showed great enthusiasm as they explored numbers and worked together with their classmates. It was a wonderful opportunity to develop early numeracy skills in a playful and engaging way.

Springfields Primary School observed World Environment Day on 5th June 2026 with a special environmental awareness programme. Officers from the Lusaka City Council visited the school to educate learners about the environment and the need to protect it.

They discussed the different ways the environment can be damaged, such as through pollution, poor waste disposal, and cutting down trees, and emphasized the importance of caring for nature. Learners were encouraged to develop habits that promote a clean and healthy environment by planting trees, disposing of waste responsibly, and preserving natural resources.

Learners celebrated by presenting their knowledge of environmental topics, including soil types and plant parts with their functions. They also engaged in hands-on activities like planting trees and vegetable seeds around the school. The event was both educational and enjoyable, fostering appreciation for environmental protection and motivating learners to contribute to a greener future.

This month, as Primary Section, we recorded meaningful progress through teamwork, dedication, and excellence in teaching and sports. We worked collaboratively in lesson planning,

resource sharing, and classroom support, creating a positive learning environment for learners.

We also promoted participation, discipline, and teamwork through sports activities, while continuing to deliver engaging and effective lessons using a variety of teaching methods. Together, we remain committed to inspiring minds and making a difference in the lives of our learners.
