- English (Fluent)
- Tamil (Native)
- Kannada (Basic)
- Hindi (Intermediate)
- Malayalam (Intermedaiate)

ABOUT

Curious and evolving architect and interior designer with a year of experience in residential, commercial, and interior projects. I immerse myself in deep research and design thinking to develop concepts rooted in context, culture, and user experience. I believe architecture is not just about form and function, but about creating spaces that resonate emotionally with people. I'm hands on in every phase from ideation to execution and continuously strive to refine my process through reflection and experimentation. Passionate about staying updated with emerging tools and techniques, I'm now seeking opportunities in Dubai to contribute to thoughtful, forward-thinking design practices.

WORK EXPERIENCE

ARCHITECT

Design Instinct, Bangalore [May 2024 -Jun 2025]

- Executed design and visualization for residential, commercial, and interiors
- Created models and renders using AutoCAD, SketchUp, Lumion
- Managed site visits, vendor meetings, and documentation

INTERN ARCHITECT

Design Instinct, Bangalore [Jan 2024 -Apr 2024]

- Developed proposals and coordinated client feedback
- Contributed to project execution and presentation support
- Contributed to design concepts and project presentations for residential and commercial works.

TRAINEE ARCHITECT

Design Instinct, Bangalore [Jun 2023 -Dec 2023]

- Gained hands-on experience in residential and commercial architectural design.
- Supported eco-conscious design research and drafts
- Delivered visuals, documentation, and planning support
