

Purpose Auto
WE FIX IT ON PURPOSE

Purpose Auto Training Curriculum

Module 1: General Maintenance & Light Repair (MLR Tech)

Lesson 1.01 - The Origins of Oil and Lubrication

Explore how engine lubrication began and why its critical for long-term engine performance.

Lesson 1.14 - Belts, Pulleys, Coolant and Hoses

Understand key underhood systems including cooling and accessory belt drives.

Lesson 1.26 - Steering and Suspension Diagnosis (Part 1)

Learn to evaluate and diagnose problems in front suspension and steering components.

Module 2: Tire Change & Tire Balancing

Lesson 2.01 - Wheels and Tires

Identify wheel and tire types, functions, and basic safety considerations.

Lesson 2.10 - TPMS Systems

Understand how Tire Pressure Monitoring Systems work and how to troubleshoot them.

Lesson 2.22 - Dismounting and Mounting a Tire

Learn how to safely remove and install tires using standard equipment.

Module 3: Brake Systems

Lesson 3.01 - Disc Brake System

Break down how disc brakes operate and identify their components.

Lesson 3.14 - Non-Servo Drum Brakes

Explore the construction and operation of non-servo drum brake systems.

Lesson 3.26 - Master Cylinder Operation Part 1

Gain insight into the role of the master cylinder and how it creates brake pressure.
