who we are

CleanTex Labs is a global provider of advanced garments and solutions for cleanrooms, controlled environments, ESD-sensitive areas, and medical facilities.

We deliver high-quality garments to rental service providers, end users, and specialized distributors.

As a dedicated specialist in contamination control, our focus is 100% on what matters most: protecting your processes, your people, and your environment.

Cleantex Strong recycled

Fabric:

98% rPET
2% Carbon
118 g/m²
Twill 3/2

Colours on demand:

zr0.dye - a smarter approach to color

The dyeing process is one of the most resource-intensive steps in textile production, consuming large amounts of water, energy and chemicals. Making it a significant environmental challenge.

With **zr0.dye**, we eliminate the dyeing stage, significantly reducing water and energy consumption while lowering the overall environmental impact. The result? A fabric that performs just like traditional cleanroom textiles, with minimal visual difference compared to standard white fabrics but with a cleaner production footprint.

A simplified process, fewer resources, **zr0.dye** is a step forward in responsible material innovation.
