## A few areas to install PVC Panels include:

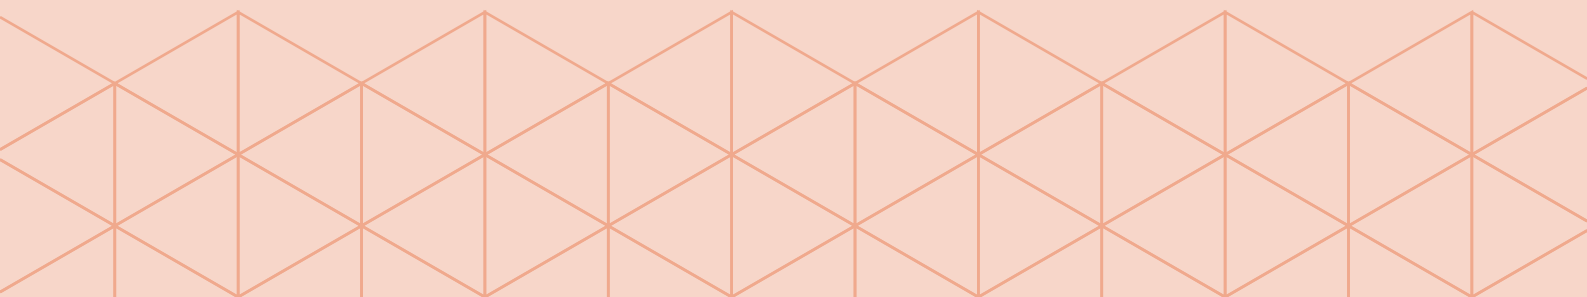

- Window & Door Surrounds
- Fascia & Soffit Trim
- Deck Skirting
- Architectural Mouldings
- Column & Post Wraps
- Porch Ceilings
- Groove Wall Panelling
- Corner Boards

Coming to the residential application, the PVC Wall Paneling turns out to be a suitable choice for the following spaces:

- Bedroom
- Living Room
- Kitchen
- Office
- Lobby, and
- Most importantly, the Roofs

## Advantages of PVC Wall Panels :

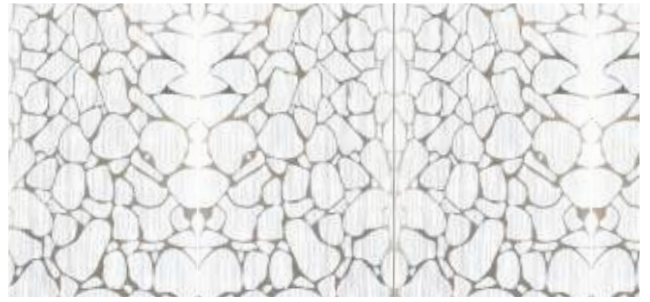

- PVC wall panels can be very useful when there is dampness in a wall. It can resist moisture very well.
- PVC is an environment-friendly material. Much medical equipment and food packaging are made from it because they do not cause any harm to the environment. This makes it useful for schools, hospitals, and sports arenas.
- PVC is very resistant to moisture. It is free from cracks and pores, which prevents bacteria growth. The boards have a layer of polyurethane that gives them a smooth, plain surface. These boards are easy to clean. It is easy to clean the wall paneling because there is no dirt on it. These panels can be used in kitchens and bathrooms, as well as other rooms.
- When used on exterior surfaces of the house, they don't rust.
- They burn slowly because their ignition temperature is 60 C. They emit less smoke than wood, and they are less toxic in the natural environment.
- Because these panels are lightweight, the installation time is very short. These panels are easy to cut and install without the need for grout.
- The interlocking tongue and groove system allows for the fast fixing of many panels. This allows you to easily replace one panel if it becomes damaged.
- Insulating with PVC panels is easy.
- PVC panels can be recycled and old ones can be given to a recycling facility.
- PVC panels come in many different colors and designs. Designers have many options when it comes to creating a wall decoration.
- PVC panels have a finished surface. These panels do not require any additional finishing, such as painting or polishing.

# DIGITAL MARBLE SHEET

# DIGITAL MARBLE DESIGNS

Digital marble design sheets refer to digitally created or simulated sheets that showcase various marble patterns and designs.

These sheets are typically used in the interior design and construction industries for planning and visualizing how marble surfaces will appear in a given space. Unlike traditional marble, which is a natural stone, digital marble design sheets are crafted using computer-generated graphics to replicate the intricate details and veining patterns found in real marble.

## Benefits and Features

**LM Buildtech** EXTAFF is a solvent based high strength construction adhesive. It bonds wood, concrete board, metals, masonry, ceramics and glass. Reduces the need for screws and nails.

**Directions :**

1. Ensure the surfaces to be bonded are clean and dry.
2. Cut the nozzle and fit to a cartridge gun.
3. Apply a zig zag bead of the adhesive along the joint, panel or stud. Assemble the joint within 10 minutes and clamp with nails, screws or fasteners for at least 24 hours.
4. Remove wet adhesive excess with mineral turpentine. Dry excess can be sanded or scraped.

**Warning :**

- Keep out of reach from children.
- Do not inhale vapours this product.

## OUR INFRASTRUCTURE

LM BUILDTECH has a consolidated capacity of 36.66 Million Tonnes Per Annum (MTPA) of White cement. LM BUILDTECH has 24 integrated manufacturing units, 33 grinding units, one Clinkerisation unit and 8 Bulk Packaging Terminals. LM BUILDTECH has a network of over one lakh channel partners across the country and has a market reach of more than 80% across India. In the white cement segment, LM BUILDTECH goes to market under the brand name of LM Buildtech. It has one White Cement unit and three Wall Care putty units, with a current capacity of 1.98 MTPA. With 321 Ready Mix Concrete (RMC) plants in 134 cities, LM BUILDTECH is the largest manufacturer of concrete in India. It also has a slew of speciality concretes that meet specific needs of discerning customers. Our Building Products business is an innovation hub that offers an array of scientifically engineered products to cater to new-age constructions

LM BUILDTECH pioneered the LM BUILDTECH Building Solutions (LBS) concept to provide individual home builders with a one-stop-shop solution for building their homes. This is the first pan-India multi-category retail chain catering to the needs of individual home builders (IHBs). The purpose of this initiative is to engage with home builders at all stages of the construction cycle, empower them with quality construction products and services, and assist in the completion of their dream homes.

LM BUILDTECH is a founding member of Global Construction Chemicals and Concrete Association (GCCA). It is a signatory to the GCCA Climate Ambition 2050 and has committed to the Net Zero Concrete Roadmap announced by GCCA. LM BUILDTECH is focused on accelerating the decarbonisation of its operations. It has adopted new age tools like the Science Based Targets Initiative (SBTi) and Internal Carbon Price as well as set ambitious environmental targets through both EP100 and RE100.

LM BUILDTECH is the first company in India and the second company in Asia to issue dollar-based sustainability linked bonds. LM BUILDTECH works to actively contribute to the social and economic development of the communities in which it operates in. The Company's social initiatives focus on education, healthcare, sustainable livelihoods, community infrastructure and social causes. LM BUILDTECH reaches out to more than 1.8 million beneficiaries in over 500 villages in 16 states across India.
